# STATE OF NEW HAMPSHIRE ORGANIZATION CHART

#### LETTER OF TRANSMITTAL

December 1, 1997

To: The Citizens of New Hampshire, Her Excellency the Governor and the Honorable Council

#### INTRODUCTION

In accordance with the Revised Statutes Annotated (RSA) 21-I:8I(h), it is a pleasure to submit the Comprehensive Annual Financial Report (CAFR), covering the fiscal year ended June 30, 1997. As this report illustrates, New Hampshire's vivid scenery and rich history are fundamental to the State's appealing quality of life. This quality of life is one of the features that attract employers and workers to the State.

This report has been prepared by the State's Department of Administrative Services and responsibility for both the accuracy of the data presented and completeness and fairness of the presentation, including all disclosures, rests with the State. The general-purpose financial statements, considered by management to present fairly and consistently the State's financial position and results of operations, are based on generally accepted accounting principles (GAAP).

The State's CAFR is reported in three major sections in accordance with criteria established by the Governmental Accounting Standards Board (GASB). They are the introductory, financial and statistical sections. The introductory section includes summary financial data and comments on matters of interest to the reader. The financial section includes the general-purpose financial statements and notes thereto, as well as combining financial statements. The statistical section contains unaudited statistical trend information, demographic and economic data.

The notes to the financial statements are considered an integral and essential part of adequate disclosure and fair presentation of the general-purpose financial statements. The notes include the summary of significant accounting policies applied to the matters relating to the financial position and results of operations of the State. The notes provide significant insight into the financial statements and are necessary to understand the financial statements.

The CAFR presents information on the financial position and operations of the State's primary government and its component units as one reporting entity. The various agencies, departments, boards, commissions, and funds of the primary government and the five component units which comprise the State's reporting entity are included in this CAFR in accordance with criteria established by the GASB. The criteria, as covered in Note 1 "Summary of Significant Accounting Policies" of the notes to the financial statements, includes governmental activities and programs of the primary government and those governmental and non-governmental entities for which the State is "financially accountable" as defined by the legal statutes of the State of New Hampshire and GAAP.

#### ECONOMIC CONDITION AND OUTLOOK

The State's economic outlook continues to be bright as the New Hampshire economy has experienced strong steady growth since the 1988-1992 recession. This growth can be attributed to New Hampshire's skilled and hard working labor force, quality of life, proximity to Boston/Route 128, and the tax advantage. New Hampshire ranked first among the 50 states in percent of private employment in high tech industries at 7.8% (American Electronics Association, 1996). The State has a strong core of high performing small and medium-sized manufacturing and service establishments. In 1996, NH exports grew by 11%, exceeding all other New England states.

Since the recession, total employment has risen over 22%, more than making up for the 5% employment loss during the recession (Table 1). Unemployment has declined and, unlike the other New England states, the labor force is increasing. Since January 1, 1997, the State's labor force has increased by 21,000 workers while unemployment declined by 1.1%. The State's August 97 unemployment rate was 2.7% which was among the lowest in the country. For the period of August 96 to August 97, employment grew by 1.7%, ranking New Hampshire 24<sup>th</sup> among the states and suggesting that the current growth is sustainable.

Table 1 - Nonfarm Employment in New Hampshire, 1988 - 1997

	1988	1992	July 1997	% Change 1992 - July '97
Service	119,400	129,600	171,100	32%
Retail Trade	112,900	102,000	127,900	25
Manufacturing	117,900	97,400	105,600	8
F.I.R.E.*	32,300	29,100	28,900	(1)
Whole. Trade	23,200	21,600	27,700	28
Construction	36,400	16,300	22,600	39
Fransportation	18,200	17,300	19,400	12
Total Private	460,300	413,300	503,700	22

Notes: July 1997, figures are preliminary and seasonally adjusted.

\*Finance, Insurance and Real Estate

Manufacturing firms' employment levels continue to stand out. For the period of July 96 to July 97, employment grew almost 3% with an increase in 2,900 jobs. Since the low point in 1992, manufacturing employment has gained more than 2,000 jobs per year. The leading manufacturing industries include electronics, industrial machinery, instruments, and rubber and plastics products.

Many of our industries function as problem-solving component part and/or high value-added service suppliers to original equipment manufacturers located outside of the State, region and nation. Firms in these industries tend to employ skilled labor, pay well, and export products. Of the top ten leading industries (ranked by level and growth in employment, wages, establishments and productivity) in the State, five are in service and five are in manufacturing. No single industry dominates. (Table 2).

Table 2 - New Hampshire's Leading 4-Digit Industries

SIC		Number Employees	Nominal Wages	# of Establishments

3082	Unsupported Plastics Profile Shapes	199	43,126	5

Source: New Hampshire Industry Group, University of New Hampshire, 1997.

Tourism is also important to the State's economy. The three year (1994 -1996) average monthly covered payroll employment for the restaurants, lodging, and amusement and recreation sectors equaled 46,200 during the non-summer months. This average increases to 56,700 during the summer months. As New Hampshire targets the foreign tourist market, the employment and income generated from tourism is projected to increase.

Finally, the following rankings substantiate New Hampshire's claim to an appealing quality of life that is key to attracting business:

- · Morgan Quitno ranked NH second in its 1997 most livable state award;
- Money Magazine (July 1997) ranked Portsmouth, Manchester, and Nashua among the 6 best places to live in the country;
- · Kids Counts Data Book ranked New Hampshire as the number one state for child welfare; and
- In 1996, New Hampshire had the lowest percentage of people living below the poverty level.

#### Information Sources

- Ross Gittell, Associate Professor and member of the New Hampshire Industry Group, Whittemore School of Business and Economics, University of New Hampshire.
- · New Hampshire Department of Employment Security, Economic and Labor Market Information Bureau.

#### MAJOR INITIATIVES

#### Education:

State support for local education for the next biennium will increase by 40 percent. Local school districts will receive in state fiscal year 1998, nearly \$71 million, the largest state distribution ever under the foundation aid program. An expanded kindergarten incentive program provides state funding of \$750 per kindergarten pupil as well as 75 percent of the school districts capital costs associated with the offering of public kindergarten. A reading recovery initiative was adopted to help teachers learn to identify reading problems early and give extra help to children who need it. Special education will be fully funded for all grade levels. Also, schools will receive help meeting the higher standards set for them under the state assessments program. Families who are planning on sending children to college will be able to take advantage of a new, tax-free tuition savings plan to help save for higher education.

#### **Economic Development:**

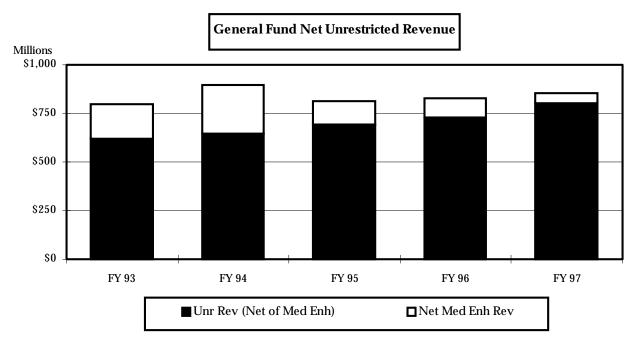

Investments in roads and bridges were increased in the FY 1998-99 budget by \$30 million. Following comprehensive reforms to lower the cost of workers' compensation insurance, average workers' compensation premium levels decreased by 10.5 percent in 1997. Marketing and promotion of New Hampshire as a tourist destination has been enhanced, and the first Tourism Task Force in 20 years has been established to develop strategies for growing the state's second largest industry. A campaign called "New Hampshire Stories" has been launched to enhance the value of New Hampshire-made specialty products by creating a brand identity for the state. Finally, in order for the State to maintain its competitive edge to retain and encourage existing businesses to expand and to attract new businesses, the electric rates being charged by many New Hampshire utilities must be reduced. The State is aggressively moving through negotiation and regulatory proceedings to a restructuring of the electric industry that will lead to competition among electric company suppliers, thereby reducing rates. When negotiations with Northeast Utilities and Public Service of New Hampshire failed to lower electric rates, the governor for the first time in New Hampshire's history, intervened with proceedings before the Public Utilities Commission.

#### Fiscal Responsibility:

In fiscal year 1997, the \$44.1 million deficit from fiscal year 1996 was virtually eliminated. Since fiscal year 1994, the growth in state revenues has allowed the State to reduce its dependency on the Medicaid Enhancement Tax. In addition, cities and towns are receiving \$98 million more in state aid over the next two years, than during the previous biennium. This additional state funding should provide some property tax relief. A panel has been established to validate and build consensus for revenue forecasting techniques. To make state agencies more accountable, performance based budgeting is being reviewed with pilot agencies being considered for the introduction of performance based budgeting<del>.</del>. Finally, the consolidation of the state employees' health insurance program to one provider reduced the annual cost of the program by \$10 million.

#### FINANCIAL INFORMATION

During fiscal year 1997, the State experienced steady economic growth having a positive impact on tax collections and reducing the demand for public assistance. The General Fund unrestricted revenue, net of medicaid enhancement revenues, grew to \$799.7 million which was a 10.0% increase over fiscal year 1996. Medicaid enhancement revenues net of revenues to fund appropriation for uncompensated care, decreased to \$54.3 million in fiscal year 1997 from \$101.9 million earned in fiscal year 1996 (see table below). The June 30, 1997, General Fund undesignated fund deficit was reduced to \$1.2 million from a deficit of \$44.2 million at June 30, 1996. The balance in the Reserved for Revenue Stabilization Account remained at \$20.0 million.

The balance in the Reserved for Health Care Transition Fund was reduced to \$50.8 million after making a \$39.0 million transfer to General Fund undesignated fund balance. The transfer covered shortfalls from the revenues anticipated for medicaid enhancement revenues and revenue recoupment efforts at the Department of Health and Human Services.

General government functions are accounted for in the governmental fund type, which are the general, special revenue and capital projects funds. Revenues of the governmental fund type and expendable trust funds by revenue categories are as follows:

				Increase	
Governmental and		Percent		(Decrease)	Percent of
Expendable Trusts:	FY 1997	of State	FY 1996	from	Increase
(Dollars in Thousands)	Amount	Total	Amount	Prior Year	(Decrease)
Taxes	\$ 944,458	39.4 %	\$ 877,038	\$ 67,420	7.7 %
Fees and Fines	108,265	4.5	109,760	(1,495)	(1.4)
Grants from Federal Government	796,797	33.3	818,672	(21,875)	(2.7)
Grants from Private and Local Sources	103,374	4.3	107,592	(4,218)	(3.9)
Sale of Services and Commodities	106,990	4.5	102,542	4,448	4.3
Assessments	15,157	0.6	14,058	1,099	7.8
Grants from Other Agencies	23,273	1.0	21,971	1,302	5.9
Miscellaneous	78,659	3.3	73,852	4,807	6.5
Total	\$2,176,973	90.9 %	\$2,125,485	\$ 51,488	2.4 %

Discussion of significant changes:

- Tax collections increased due to the continued strong economy. The combined increase for Business Profits Tax and Business Enterprise Tax was 18.3% for a total of \$32.5 million over fiscal year 1996. The Meals and Rooms Tax, Tobacco Tax, Insurance Tax and the Estate and Legacy Tax all had large increases that ranged from \$5.6 million to \$7.5 million.
- Grants from Federal Government declined primarily due to lower than anticipated federal medicaid revenues recognized for disproportionate share payments. Offsetting the decrease are increases in additional funding for highway projects, Environmental Services state revolving loans, and the school to work program.

Expenditures of the governmental fund type and expendable trust funds by category are as follows:

Governmental and Expendable Trusts: (Dollars in Thousands)	FY 1997 Amount	Percent of State Total	FY 1996 Amount	Increase (Decrease) from Prior Year	Percent of Increase (Decrease)
General Government	\$ 183,811	7.9%	\$ 190,411	\$ (6,600)	(3.5) %
Administration of Justice and					
Public Protection	172,020	7.4	162,179	9,841	6.1
Resource Protection and Development	109,987	4.7	100,070	9,917	9.9
Transportation	196,898	8.5	196,982	(84)	0.0
Health and Social Services	1,140,142	49.2	1,145,471	(5,329)	(0.5)
Education	227,084	9.8	208,586	18,498	8.9
Debt Service	75,461	3.2	74,754	707	0.9
Capital Outlay	129,305	5.6	109,207	20,098	18.4
Total	\$ 2,234,708	96.3%	\$ 2,187,660	\$ 47,048	2.2%

Discussion of significant changes:

- *General Government* expenditures decreased due to the Job Training Council Delivery System which was transferred from the Governor's Office (General Government) to the New Hampshire Community Technical College System (Education). Job Training was transferred in order to coordinate and maximize the education and training opportunities. The transfer resulted in a \$9.1 million decrease in general government for expenditures incurred in fiscal year 1996 and a \$10.7 million increase in education expenditures incurred in fiscal year 1997.
- Administration of Justice and Public Protection expenditures increased for Judicial branch (\$2.5 million), Department of Corrections (\$2.4 million), Department of Justice (\$2.7 million) and Emergency Management (\$2.4 million). Offsetting these increases were capital fund reductions in connection with the substantial completion of the I-95 liquor store in fiscal year 1996.
- *Resources Protection and Development* expenditures increased due to an additional \$9.3 million of expenditures in the State Revolving Loan program for waste water and landfill closure projects.
- *Education* expenditures increased as a result of the \$4.1 million initial kindergarten aid payments. In addition, expenditures increased by \$2.7 million for the federally funded School to Work program.
- *Capital Outlay* expenditures increased primarily due to an additional \$24.7 million Highway Fund expenditures for bridge replacement, betterments, equipment, and other highway reconstruction projects.

#### Enterprise Funds:

The State's Enterprise Funds account for the self-supporting activities of State governmental units which render services on a user-charge basis to the general public. These funds account for the activities of the Turnpike System, Liquor Commission, and the Sweepstakes Commission.

Net proceeds from operations of the Liquor Commission and the Sweepstakes Commission are transferred to the General Fund. The Liquor Fund net proceeds are used to fund the general operations of the State and the Sweepstakes net proceeds are subsequently disbursed by the Department of Education to local school districts throughout the State in accordance with a formula established by law.

The New Hampshire Turnpike System operates a self-supporting toll road which presently consists of approximately 94 miles of limited access highway, 37 miles of which are part of the U.S. Interstate Highway System. All revenues derived by the Turnpike System are used for operations, maintenance and repair, and the timely payment of principal and interest on debt.

#### Non-Expendable Trust Funds:

The non-expendable trust funds account for assets received and expended by the State as trustee.

Schedule of the enterprise funds and non-expendable trust funds revenues:

Enterprise Funds and Non-Expendable Trusts: (Dollars in Thousands)	FY 1997PercentAmountTotal		FY 1996 Amount	Increase from Prior Yær	Percent of Increase		
Turnpike System Liquor Commission	\$ 55,408	2.3%	\$ 52,769	\$ 2,639	5.0%		
(Net of Cost of Sales/Services) Sweepstakes Commission	84,077	3.5	78,136	5,941	7.6		
(Net of Cost of Sales/Services)	73,637	3.1	67,961	5,676	8.4		
Non-Expendable Trusts	5,179	0.2	4,381	798	18.2		
Total	\$ 218,301	9.1%	\$ 203,247	\$ 15,054	7.4%		

Schedule of the enterprise funds and non-expendable trust funds expenses:

Enterprise Funds and Non-Expendable Trusts: (Dollars in Thousards)	FY 1997 Amount			Increase (Decrease) from Prior Yær	Percent of Increase
Turnpike System Liquor Commission	\$ 41,897	1.8%	\$ 41,303	\$ 594	1.4%
(Net of Cost of Sales/Services) Sweepstakes Commission	20,580	0.9	20,797	(217)	(1.0)
(Net of Cost of Sales/Services)	19,430	0.8	18,421	1,009	5.5
Non-Expendable Trusts	4,027	0.2	3,469	558	16.1
Total	\$ 85,934	3.7%	\$ 83,990	\$ 1,944	2.3%

Increases in Liquor Commission profits are due to successful marketing strategies for wine that have included discounts on case lots and specific promotional campaigns. The Liquor Fund transfer to the General Fund in fiscal year 1997 equaled \$63.5 million, a \$6.2 million increase over fiscal year 1996.

Increases in Sweepstakes revenue are linked to Powerball being in operation for the entire fiscal year and the growth and popularity of the Instant Games. The Sweepstakes Fund transfer to the General Fund in fiscal year 1997 equaled \$54.2 million, a \$4.7 million increase over fiscal year 1996.

#### **Budgetary Process:**

The State budget is prepared on a biennial basis. Prior to the start of each biennium, all departments of the state are required by law to transmit to the Commissioner of the Department of Administrative Services requests for capital and operating expenses and estimates for revenue for the ensuing biennium. Following public hearings and consultation with various department heads, the Governor prepares the governor's recommended budget. The budget is forwarded to the Legislature by February 15<sup>th</sup> of the odd year for consideration. The Legislature performs its review of the proposed budget and can make further adjustments. The budget passed by the Legislature is forwarded to the Governor to be enacted into law or to be vetoed.

The legal level of budgetary control is at the department level. All departments are authorized to transfer appropriations within their departments with prior approval from the Legislative Fiscal Committee and the Governor and Executive Council.

#### Internal Controls:

Major fiscal responsibilities within the State of New Hampshire are segregated among the following appointed officials:

- Department of Administrative Services The Commissioner of Administrative Services, the Assistant Commissioner/ Budget Officer and the Comptroller are responsible for enforcing financial policy guidelines, developing the executive budget, collecting financial data from individual agencies, developing and reviewing appropriation control procedures, and compiling agency financial information.
- Legislative Budget Assistant (LBA) The LBA, an appointed official, is responsible for ensuring that an annual audit is conducted of the State's general purpose financial statements prepared by the Department of Administrative Services. The LBA also provides staff assistance to the finance committees of the State Legislature. The LBA Audit Division performs various financial, compliance and performance audits of state agencies.
- *State Treasurer* The State Treasurer, elected by the Legislature, is responsible for executing policy for the management of the State Treasury and depositing and investing state funds as well as the issuing of general obligation and revenue bonds.
- *State Agencies* Agency Commissioners and Directors are responsible for administering their agencies, in accordance with legislative and executive directives, to effectively service the citizens of the State of New Hampshire.

Financial transactions for the various state agencies are recorded in New Hampshire Integrated Financial System (NHIFS). The State's centralized accounting system and other accounting procedures were designed to provide various controls to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use and also the proper recording of financial transactions. The Department of Administrative Services prepared the Internal Controls Tool Kit in October 1995 to further educate agency personnel in the importance of maintaining an effective internal control structure.

#### Component Units:

The State's financial reporting entity consists of the primary government, composed of the funds and departments or agencies of the State, and five discretely presented component units. Component units are organizations which are legally separate from the State, but for which the State is deemed "financially accountable" under the various criteria set forth in GASB Statement No. 14. The Business Finance Authority, the Pease Development Authority, the University System of New Hampshire, the New Hampshire Retirement System and the Community Development Finance Authority are the five component units whose financial statements have been discretely presented in the State's CAFR for the year ended June 30, 1997.

#### Debt:

The State may issue general obligation bonds, revenue bonds, and notes in anticipation of such bonds authorized by the Legislature and Governor and Council. The State may also directly guarantee certain authority or political subdivision obligations. The State has entered into lease/purchase agreements, but they are not material in the aggregate. At year-end, the State's general obligation bonds were rated AA+ by Standard and Poor's Corporation, Aa2 by Moody's Investors Service, and AA+ by Fitch Investor Service, Inc. The State had approximately \$661.4 million in general obligation bonds and \$271.9 million of Turnpike revenue bonds outstanding at year-end.

The State had two bond issues in fiscal year 1997. On December 19, 1996, the state issued a total of \$63.2 million of general obligation bonds that included \$53.2 million of refunding bonds. On May 28, 1997, the State issued \$20.3 million of general obligation capital improvement bonds (College Savings Bond Program).

The State does not have any debt limitations, except for contingent debt guarantees which are detailed in the Notes to the Financial Statements.

#### Cash and Investments:

Cash deposits into the State Treasury are coordinated jointly by the State Treasurer and the State agencies. Cash is managed in pooled investment funds in order to maximize interest earnings. Investments are made in accordance with the State statutes. Cash is primarily invested in United States Treasury and agency obligations and certificates of deposit. For the fiscal year ended June 30, 1997 the average daily balance of pooled investment funds was estimated at \$297.1 million with an average yield of 5.9%. Total investment income was \$17.6 million for the year.

#### Insurance:

Historically, the State has assumed the risk for fire, property and general liability purposes, except where the provisions of law allow for the purchase of commercial insurance or where commercial insurance has been proven beneficial to the general public. Commercial insurance is purchased by the State to cover such things as fleet automobile, watercraft and aircraft liability, ski area operations to protect the State from liabilities resulting from state run facilities and a faithful performance position schedule bond to protect against dishonest acts of employees'.

Prior to July 1985, the State relied on the doctrine of sovereign immunity. Subsequently, legislation became effective creating the statute "Claims Against the State" in which sovereign immunity was waived to certain limits and would allow certain types of actions and claims to be brought against the State. The limits set by the statute are the basis for risk management programs.

#### GASB Statements:

The Governmental Accounting Standards Board (GASB) periodically issues statements establishing governmental accounting and financial reporting principles. To remain in conformity with generally accepted accounting principles (GAAP), the State is required to implement these statements within the time frames established by GASB. During fiscal year 1997, the State has implemented Statement No. 27 - "Accounting for Pensions by State and Local Governmental Employers" (Early Implementation).

#### OTHER RELEVANT INFORMATION

Pursuant to RSA 21-I:8I(h), the State Legislative Budget Assistant may designate a Certified Public Accountant not employed in state service to conduct an annual audit, in accordance with Generally Accepted Auditing Standards, of the State's general purpose financial statements. KPMG Peat Marwick LLP, the designated Certified Public Accountant, has performed an independent audit of the State's financial statements for the fiscal year ended June 30, 1997.

In order to comply with the Single Audit Act of 1984, the Legislative Budget Assistant also contracts for a single audit of the State as a whole, which will include a legal compliance report on all federal funds received by the State. This report (including a Schedule of Expenditures of Federal Awards received by the State and comments on internal accounting controls and compliance with laws, rules and regulations) will be published separately.

The fiscal year 1997 Comprehensive Annual Financial Report (CAFR) is the second CAFR to receive an unqualified audit opinion since the State converted to GAAP reporting in 1979. During 1996, the State focused on the elimination of the long standing audit qualification relative to the General Fixed Asset Account Group. As a result of this accomplishment, the 1996 CAFR was submitted to the Government Finance Officers Association (GFOA) to be evaluated for the Certificate of Achievement for Excellence in Financial Reporting Program. The review of the 1996 CAFR by GFOA identified some reporting issues that the State addressed in the 1997 CAFR. The State plans on resubmitting to GFOA once again with the hope that the 1997 CAFR will meet the standards required by the GFOA.

#### CONCLUSION

In submitting this report, I acknowledge the cooperation and assistance of all the state agencies and the dedication of the employees of the Division of Accounting Services.

Respectfully submitted,

Donald S. Hill, Commissioner

#### INDEPENDENT AUDITORS' REPORT

To the Fiscal Committee of the General Court State of New Hampshire Concord, New Hampshire

We have audited the accompanying general purpose financial statements of the State of New Hampshire as of and for the year ended June 30, 1997. These general purpose financial statements are the responsibility of the State of New Hampshire's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit. We did not audit the financial statements of any of the entities included in the "Component Units" column of the general purpose financial statements. Those entities were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to data included for those entities, is based solely on the reports of the other auditors.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, based on our audit and the reports of other auditors, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the State of New Hampshire as of June 30, 1997, and the results of its operations, and cash flows of its proprietary fund types, nonexpendable trust funds, and discretely presented component units for the year then ended in conformity with generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued a report dated December 1, 1997, on our consideration of the State of New Hampshire's internal control over financial reporting and our tests of its compliance with certain laws, regulations, contracts and grants.

During fiscal year 1997, the State of New Hampshire implemented Governmental Accounting Standards Board Statement No. 27, Accounting for Pensions by State and Local Governmental Employers and the New Hampshire Retirement System implemented Governmental Accounting Standards Board Statement No. 25, Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans, Statement No. 26, Financial Reporting for Postemployment Healthcare Plans Administered by Defined Benefit Pension Plans, and Statement No. 28, Accounting and Financial Reporting for Securities Lending Transactions.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The accompanying combining financial statements and schedule as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the State of New Hampshire. Such information has been subjected to the auditing procedures applied in our audit of the general purpose financial statements and, in our opinion, based on our audit and the reports of other auditors, is fairly stated in all material respects in relation to the general purpose financial statements taken as a whole.

We did not audit the data included in the introductory and statistical sections of this report and, accordingly, express no opinion thereon.

KPM6 Peat Munh LLP

December 1, 1997

## STATE OF NEW HAMPSHIRE NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 1997

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying general-purpose financial statements of the State of New Hampshire (the State) have been prepared in conformity with Generally Accepted Accounting Principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

#### A. FINANCIAL REPORTING ENTITY

For financial reporting purposes, the State has included all funds, organizations, account groups, agencies, boards, commissions and authorities and has considered all potential component units for which the State is financially accountable, and other organizations for which the nature and significance of their relationship with the State are such that exclusion would cause the State's financial statements to be misleading or incomplete. Governmental Accounting Standards Board (GASB) Statement No. 14 has set forth criteria to be considered in determining financial accountability. This criteria includes whether the State, as the primary government, has appointed a voting majority of an organization's governing body and (1) has the ability to impose its will on that organization or (2) there is potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the State. Financial accountability also exists if an organization is determined to be fiscally dependent on the primary government based on GASB Statement No. 14 criteria, although the primary government does not appoint a voting majority of the organization's governing board.

Once financial accountability has been determined for a potential component unit, that component unit is either blended into the primary government or discretely presented from the primary government. Potential component units which do not meet the financial accountability criteria, but where a voting majority of the governing board is appointed by the State are deemed to be "related organizations" under GASB Statement No. 14. The nature and relationship of the State's component units and related organizations are disclosed in the following section.

#### Discrete Component Units:

These component units are entities which are legally separate from the State, but for which the State is financially accountable for financial reporting purposes, or whose relationship with the State are such that exclusion would cause the State's financial statements to be misleading or incomplete. The component units column of the combined financial statements includes the financial data of these entities. Complete audited financial statements of the individual component units can be obtained from the respective entities.

Business Finance Authority of the State of New Hampshire (Proprietary Fund Type) - The Business Finance Authority (BFA) is a body corporate and politic with a governing board of fourteen members. Nine members are appointed by the Governor with the consent of the Executive Council, two are State Representatives, two are State Senators, and the State Treasurer serves ex officio. The State currently guarantees \$78.1 million of outstanding loans and principal on bonds of the BFA as of June 30, 1997, which creates the potential for the BFA to impose a financial burden on the State.

#### A. FINANCIAL REPORTING ENTITY (Continued)

Discrete Component Units (Continued):

The Community Development Finance Authority (Proprietary Fund Type) - The Community Development Finance Authority (CDFA) is a body corporate and politic and organized as a nonprofit corporation under RSA 292. The governing board of eleven is made up of the Commissioner of the Department of Resources and Economic Development or designee and ten public members appointed by the Governor and Executive Council as follows: four representatives of community development corporations or other nonprofit organizations engaged in community development activities, one representative of organized labor, two representatives of small business and the financial community, one representative of employment training programs, and two representatives of private financial institutions. An investment tax credit equal to 75 percent of the contribution made to the CDFA during the contributor's tax year is allowed against certain taxes imposed by the State. In accordance with RSA 162-L:8, the total credits allowed shall not exceed \$1.5 million in any state fiscal year through June 30, 1999. Under GASB Statement No. 14 criteria, these credits impose a financial burden on the State. The CDFA has a fiscal year end of December 31, 1996.

*New Hampshire Retirement System (Pension Trust Fund)* - The New Hampshire Retirement System (System) is a contributory pension plan and trust qualified as a tax exempt organization under Sections 401(a) and 501(a) of the Internal Revenue Code. It is a defined benefit plan providing disability, death and retirement protection to it members which include full-time employees of the State and substantially all school teachers, firefighters and police officers within the State. Full-time employees of political subdivisions can participate if their governing body elects to participate.

The System is administered by a thirteen member Board of Trustees on which the State does not represent a voting majority. The Board is fiduciarily responsible for the trust funds assets and directs the investment of the pension assets, reviews actuarial assumptions and valuations from which the employer contributions rates are certified by the Board, and generally supervises the operations of the System.

The System is deemed to be fiscally dependent on the State under GASB Statement No. 14 criteria as the employee member contribution rates are set through state statute, and the State has budget approval authority over the administrative costs of the System.

*Pease Development Authority (Proprietary Fund Type)* - The Pease Development Authority (PDA) is a body corporate and politic with a governing body of seven members. Four members are appointed by the State and three members are appointed by the City of Portsmouth and the Town of Newington. The State has loaned the PDA \$13.4 million for operating purposes, \$5.4 million for water pollution control and \$5.0 million for matching funds relative to federal grants, issued \$28.1 million of bonds on behalf of the PDA and has awarded the State's guarantee on \$0.7 million in bonds issued by the PDA.

Discrete Component Units (Continued):

University System of New Hampshire (College and University Fund) - The University System of New Hampshire (University System) is a body corporate and politic with a governing board of twenty-five members. A voting majority is represented by the State through the eleven members appointed by the Governor and Executive Council of the State and three state officials serving as required by law. These state officials are the Governor, the Commissioner of the Department of Education and Commissioner of the Department of Agriculture. The remaining board members represent the university and the various colleges of the system, the alumni and the student body. The University System funds its operations through tuition and fees, government grants and contracts, auxiliary operations and state appropriations. These state appropriations for operations and capital projects represented 17.8% of the total University System's revenue for fiscal year 1997.

#### **Related Organizations:**

The State is responsible for appointing voting members to the governing boards of the following legally separate organizations, but the State's financial accountability for these organizations does not extend beyond making the appointments. Therefore, the financial data of these entities are excluded from the state's financial statements.

*Maine - New Hampshire Interstate Bridge Authority -* The Maine - New Hampshire Interstate Bridge Authority (Authority) was created by the Acts of the Maine Legislature and the New Hampshire Legislature in 1936-1937. The Authority is a jointly governed board which directs the long-term operation of the bridge spanning the Piscataqua River between the two states. The Commissioner of the New Hampshire Department of Transportation and two other board members appointed by the Governor and Executive Council comprise three of the six member governing board of the Authority. A trust fund established from toll revenues collected through July 1972 funds the maintenance of the bridge.

*New Hampshire Higher Education and Health Facilities Authority* - The New Hampshire Higher Education and Health Facilities Authority (Authority) is a body corporate and politic created by Chapter 195 of the State's statutes. The purpose of the Authority is essentially to provide not-for-profit hospitals, nursing homes, institutions for higher education and other similar organizations as defined in the enacting legislation with an additional method for financing buildings, equipment and student loan programs. The seven members of the Authority's governing board are appointed by the Governor and Executive Council. The bonds issued by the Authority are the liability of the Authority. The State is not liable or contingently liable for the debt of the Authority. The operations of the Authority are funded by fees charged for services provided.

*New Hampshire Housing Finance Authority* - The New Hampshire Housing Finance Authority (Authority) is a body corporate and politic created by Chapter 204 of the State's statutes. The purpose of the Authority is to stimulate the construction and rehabilitation of housing for low and moderate income families in New Hampshire. The governing board of the Authority is comprised of nine members appointed by the Governor and Executive Council. The bonds issued by the Authority are the liability of the Authority. The State is not liable or contingently liable for the debt of the Authority. The operations of the Authority are funded by fees charged for services provided.

Related Organizations (Continued):

*New Hampshire Municipal Bond Bank* - The New Hampshire Municipal Bond Bank (Bond Bank) is a body corporate and politic created by Chapter 35-A of the State's statutes. The Bond Bank enables governmental units within the State (e.g. counties, towns, school districts, etc.) to issue debt at a lower cost of borrowing and on more favorable terms than would be possible by financing on their own. The governing board of the Bond Bank consists of the State Treasurer and four other members appointed by the Governor and Executive Council. The bonds issued by the Bond Bank are the liability of the Bond Bank. The State is not liable or contingently liable for the debt of the Bond Bank. The operations of the Bond Bank are funded by investment earnings and fees.

#### **B. BASIS OF PRESENTATION - FUND ACCOUNTING**

The accompanying financial statements of the State's primary government are presented in three classifications of funds and two account groups. The fund classifications include governmental, proprietary and fiduciary funds. Account groups are presented for general fixed assets and general long-term debt. Each fund type is divided into separate funds.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources. Fund accounting is designed to report financial position and the results of operations, to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

#### **Governmental Fund Types**

#### General Fund:

The General Fund accounts for all financial transactions not accounted for in any other fund. By law, all revenues received by any department or agency of the State, other than the New Hampshire College of Agriculture and Mechanical Arts, the University System of New Hampshire, the Post Secondary Technical Education building projects revolving fund and revenues received by certain independent financing authorities of the State, are deposited at least weekly into the State Treasury. All such revenues, other than the designated revenues described below, are credited to the General Fund. Annual expenditures for all State activities and functions not allocated by law to other funds are charged to the General Fund.

#### Special Revenue Funds:

The Special Revenue Funds (Highway Fund, Fish and Game Fund and the Special Fund) are used to account for specific revenue sources that are legally restricted to expenditures for specific purposes. Special Revenue Funds include transactions related to highway maintenance and construction, conservation of natural resources, public health services and social service programs.

#### Capital Projects Fund:

The Capital Projects Fund is used to account for certain capital improvement appropriations which are or will be primarily funded by the issuance of State bonds or notes, other than bonds and notes for highway or turnpike purposes, or by the application of certain federal matching grants.

#### **B. BASIS OF PRESENTATION - FUND ACCOUNTING (Continued)**

#### **Proprietary Fund Type**

#### Enterprise Funds:

The State's Enterprise Funds were established to account for the self-supporting activities of State governmental units which render services on a user-charge basis to the general public. These funds account for the activities of the Turnpike System, Liquor Commission, and Sweepstakes Commission.

#### Fiduciary Fund Type

#### Trust and Agency Funds:

Transactions related to assets held by the State in a trustee or agency capacity are accounted for in the fiduciary fund type. The fiduciary fund type is comprised of expendable trust funds, non-expendable trust funds, and agency funds. The non-expendable trust funds account for assets received and expended by the State as trustee. The principal of the funds is non-expendable, whereas the earnings on the principal are used to support the funds' purpose. Agency funds account for assets received by the State as an agent for other governmental units, other organizations, or individuals.

#### Account Groups

#### General Fixed Assets:

The General Fixed Asset Account Group is used to account for the fixed assets of the governmental funds. Fixed assets of the proprietary funds and the discretely presented component units are accounted for in their respective funds.

#### General Long-Term Debt:

Activities related to governmental funds unmatured long-term general obligation bonds payable and the cumulative long-term liability for compensated absences and uninsured claims are reflected in the General Long-Term Debt Account Group.

#### C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds and expendable trust funds are accounted for using the flow of current financial resources measurement focus and reported on a modified accrual basis of accounting. With this measurement focus, unreserved fund balance generally reflects net current assets. Operating statements of these funds present increases (e.g. revenues and other financing sources) and decreases (e.g. expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues and assets are recognized when measurable and available to finance expenditures of the fiscal period. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures and liabilities are recognized as obligations when incurred as a result of a receipt of goods or services, except that interest on long-term debt is recognized as an expenditure when it becomes payable.

Agency Funds are also accounted for on the modified accrual basis of accounting, but do not recognize revenues and expenditures.

#### C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING (Continued)

All proprietary and non-expendable trust funds are accounted for on a flow of economic resources measurement focus and reported on an accrual basis of accounting. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Proprietary fund equity (e.g. net total assets) is segregated into contributed capital and retained earnings components. Proprietary fund type operating statements present increases (e.g. revenues) and decreases (e.g. expenses) in net total assets. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized when the liability is incurred. For all proprietary funds, the State applies all applicable Financial Accounting Standards Board (FASB) pronouncements issued on or prior to November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements. The presentation of the underlying fund types and basis of presentation of the individual component units reported in the discrete column is available from each respective component unit's separately issued financial statements.

The presentation of the component units is not meant to be a consolidation within the State reporting entity as transactions within the entity such as fixed assets and long-term debt have not been reported in the applicable State account group. However, appropriations to the component units are recorded as operating transfers out of the General and Capital Funds and as operating transfers into the component unit organization.

#### D. CASH EQUIVALENTS

For the purposes of the Statement of Cash Flows, cash equivalents represent short term investments with original maturities less than three months from the date acquired by the State.

#### E. RECEIVABLES

Receivables in the governmental fund types consist primarily of accrued taxes and federal grants receivables. Taxes receivable are primarily taxpayer-assessed revenues representing amounts owed by the taxpayer for the period ended June 30 which are received by the State shortly thereafter. These revenues are susceptible to accrual in accordance with measurable and available criteria under the modified accrual basis of accounting. Federal grant receivables are amounts due from the federal government to reimburse the State for expenditures incurred pursuant to federally funded programs.

No allowance for uncollectible amounts has been established for receivables in the governmental funds. Taxes receivable are substantially based on subsequent collections and the collection of amounts due from the federal government are reasonably assured under federal programs.

#### F. INVENTORIES

Inventories for materials and supplies are determined by physical count. The Sweepstakes game tickets are stated at the lower of cost (first-in, first-out method) or market. All other inventories in the governmental and proprietary funds are stated at average cost, except for Food Stamp coupons which are valued at the coupon face value for amounts held by the State or its agents at year end.

Governmental Fund inventories are recorded under the consumption method with the exception of the Food Stamp coupons. Reported inventory balances in the governmental funds are equally offset by a fund balance reserve that indicates they do not constitute "available spendable resources" even though they are part of net current assets. The Food Stamp inventory balance is offset by a corresponding amount of deferred revenue.

#### G. RESTRICTED ASSETS

Chapter 122 of the Laws of 1994 established the Health Care Transition Fund (HCTF). The restricted investments and receivables in the General Fund are the assets restricted for the HCTF purpose (see item L. Fund Equity).

The proceeds of Turnpike System 1987, 1990 and 1994 revenue bond series and 1991 and 1992 revenue bond refunding series, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by the bond resolution adopted by the Legislature on November 9, 1987.

#### **H. FIXED ASSETS**

#### Fixed Assets - Governmental Funds:

General fixed assets are not capitalized in the funds used to acquire or construct them. Instead, capital acquisition and construction are reflected as expenditures in governmental funds, and the related assets are reported in the General Fixed Assets Account Group. For financial reporting purposes, the State capitalizes equipment with costs of \$10,000 or greater and land, land improvements, building, building improvements and construction in progress with costs of \$100,000 or greater. All purchased fixed assets are recorded at historical cost and in some instances at an estimated historical cost. Donated fixed assets are recorded at their estimated fair market value on the date received. Interest costs incurred during construction are not capitalized. Public domain ("infrastructure") General Fixed Assets consisting of roads, bridges, dams, curbs and gutters, streets and sidewalks, drainage systems and lighting systems are not capitalized, as these assets are immovable and of value only to the State. Assets in the General Fixed Assets Account Group are not depreciated.

#### Fixed Assets - Enterprise:

Fixed assets related to the Enterprise Funds are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated fixed assets are valued at their estimated fair market value on the date received. Depreciation is computed using the straight-line method over the fixed assets' estimated useful lives which are as follows: Infrastructure - 50 years; Buildings - 20 to 40 years; Land Improvements - 20 years; Building Improvements - term of lease; and Equipment - 3 to 10 years.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's useful life are not capitalized. Improvements are capitalized and depreciated over the remaining useful life of the related fixed asset, as applicable.

Fixed assets purchased or constructed by other funding sources are recorded at cost and offset by an increase to "Contributions from Other Funds" or "Contributed Capital, (Net of Amortization)".

#### I. DEFERRED REVENUE

Deferred revenue represents monies received or revenues accrued which have not been earned or do not meet the "available" criterion for revenue recognition under the modified accrual basis of accounting. The deferred revenue in the governmental fund type has primarily resulted as an offset to long-term loans receivable and federal funds received in advance of eligible expenditures.

#### J. COMPENSATED ABSENCES

Every continuing full-time State employee in classified service is entitled to annual and sick leave with full pay on the basis of the employee's scheduled work week and years of service. Annual and sick leave is computed at the end of each completed month of service. Employees rendering seasonal or temporary service in excess of six months are entitled to annual and sick leave at the same rate for time actually worked. At the end of each fiscal year, additional leave (Bonus Days) is awarded based on the amount of sick leave taken during the year. The maximum annual accrual for bonus days is four days. Accrued compensatory time, earned for overtime worked, must be taken within one year from the date the time is earned.

The State's compensated absences liability represents the total liability for the cumulative balance of employees' annual, bonus, compensatory and sick leave based on years of service rendered. The accrued liability for annual leave does not exceed the maximum cumulative balance allowed which ranges from 30 to 48 days based on years of service. Compensatory leave liability is the amount of unused compensatory hours earned in the past year. Bonus hours accrued subsequent to June 30, 1995, must be used within one year of the date earned. The cumulative balance of unused bonus hours earned prior to June 30, 1995, can be carried forward to future periods. The sick leave liability is estimated based on the years of service rendered by the employee using a termination methodology in accordance with Governmental Accounting Standards Board Statement No. 16.

#### **K. ENCUMBRANCES**

Contracts and purchasing commitments are recorded as encumbrances when the contract or purchase order is executed. Upon receipt of goods or services the encumbrance is liquidated and the expenditure and liability are recorded. Unliquidated encumbrances are reported in the Reserved for Encumbrances account as a component of fund equity for the governmental fund types.

#### L. FUND EQUITY

Contributed capital is recorded in the proprietary funds that have received capital grants, contributions from the public or working capital transfers from other funds.

Fund balances for all governmental funds are either reserved or unreserved. Reserved fund balances reflect either 1) assets which, by their nature, are not available for appropriations (Reserve for Inventories and Reserve for Investments) or 2) funds legally segregated for a specific future use (Reserve for Encumbrances). Certain reserve accounts are further described below:

*Reserved for Unexpended Appropriations:* The account represents amounts of unexpended appropriations legally carried forward and available for encumbrances and expenditures in the succeeding year.

*Reserved for Revenue Stabilization:* Per RSA 9:13-e, a revenue stabilization account was established in the General Fund. The Reserved for Revenue Stabilization account cannot be used for any purpose other than deficit reduction without specific approval of two-thirds of each house of the Legislature and the Governor. At the close of each fiscal biennium, any General Fund undesignated fund balance will be transferred to the Reserved for Revenue Stabilization account. RSA 9:13 establishes limits to the amount that can be transferred in and establishes the maximum balance that may accumulate in the account equal to 5% of the General Fund unrestricted revenue.

In the event of a General Fund undesignated fund balance deficit at the close of a fiscal biennium, a transfer from the Reserved for Revenue Stabilization account may be made only if the General Fund's unrestricted revenues are less than budgeted. The amount of the transfer is limited to the smaller of the General Fund undesignated fund balance deficit or the unrestricted revenue shortfall.

#### L. FUND EQUITY (Continued)

*Reserved for Health Care Transition Fund:* RSA 167 established the Health Care Transition Fund. The purpose of the fund is to provide financial resources for future changes in the State's health care system which will increase the access to quality health care for the citizens of New Hampshire. In 1994, a portion of net medicaid enhancement revenues received as a result of an amendment to the State's Medicaid Plan relative to the New Hampshire Hospital disproportionate share revenues were set aside to establish the initial fund balance.

Subsequent legislation provides for transfers from the Health Care Transition Fund to cover General Fund undesignated fund balance deficits due to 1) a shortfall in net medicaid enhancement revenues in fiscal years 1995 through 1997 and 2) a shortfall in revenue recoupment efforts anticipated under a consulting contract entered into by the Department of Health and Human Services in fiscal years 1997 through 1999. Both transfers are limited to the smaller of the General Fund undesignated fund balance deficit or the calculated revenue shortfall.

In the event that net medicaid enhancement revenues exceed amounts budgeted in 1995 or any subsequent fiscal year, the excess shall be transferred back to Health Care Transition Fund. The amount transferred to the Health Care Transition Fund shall not exceed the cumulative amount transferred from the fund.

All transfers to or from the Health Care Transition Fund require the prior approval of the Legislative Fiscal Committee.

#### M. GRANTS

Certain federal grants made on an advance drawdown basis, are recorded as deferred revenue when received and revenue when the expenditures are incurred. Other federal grants made on a reimbursement basis are recorded as receivables and revenues when the related expenditures are incurred.

#### N. CAPITAL OUTLAY

This expenditure category represents equipment purchases for all funds. In addition to equipment purchases, the Highway Fund's capital outlays represent expenditures for the 10-year State highway construction program.

#### O. BOND DISCOUNTS, PREMIUMS AND ISSUANCE COSTS

In governmental fund types, bond discounts, premiums and issuance costs are recognized in the period the bond proceeds are received. Bond discounts and issuance costs for the proprietary fund type are deferred and amortized over the term of the bonds. Bond discounts are amortized using the effective interest method, and bond issuance costs are amortized using the straight line method. Bond discounts are presented as a reduction of the face amount of bonds payable whereas issuance costs are recorded as deferred charges.

#### P. INTERFUND AND INTRAENTITY TRANSACTIONS

The State accounts for interfund and intraentity transactions as described below:

<u>Operating Transfers</u> - Legally required transfers are reported when incurred as "Operating Transfers-in" by the receiving fund and as "Operating Transfers-out" by the disbursing fund. Legally required transfers between the primary government and it's component units are reported as "Operating Transfers from/to Primary Government" and "Operating Transfers to/from Component Units."

#### P. INTERFUND AND INTRAENTITY TRANSACTIONS (Continued)

<u>Reimbursements</u> - Various departments charge fees on a user basis for such services as centralized data processing, accounting and auditing, purchasing, personnel and maintenance. These fees are not considered material and are recorded as revenue by the servicing department and as expenditures by the user department. Other material reimbursement items, however, initially made from one fund properly applicable to another are recorded as expenditures in the reimbursing fund and as expenditure reductions in the fund reimbursed.

<u>Quasi-external Transactions</u> - Charges or collections for services rendered by one fund to another are recorded as revenues of the receiving fund and expenditures/expenses of the disbursing fund.

#### **Q. CAPITAL PROJECTS**

The State records the resources obtained and used for the acquisition, construction or improvement of certain capital facilities in the Highway Fund and the Capital Projects Fund. Encumbrances are recorded when contracts are executed. Expenditures are recorded, and encumbrances are liquidated, as incurred.

Resources obtained to finance capital projects include federal grants and general obligation bonds. General obligation bonds are recorded as a liability in the General Long-Term Debt Account Group, and as other financing sources in the funds that receive the proceeds.

#### R. INTERPRETATION OF "TOTALS (MEMORANDUM ONLY)" COLUMN

Totals (memorandum only) columns have been added to certain statements for the primary government and the reporting entity. The total columns include interfund activity and are not comparable to consolidated financial statements, but are presented only to facilitate financial analysis. Data in these columns does not present financial position, results of operations, or cash flows in conformity with generally accepted accounting principles. The primary government includes all funds, organizations, account groups, agencies, boards, commissions and authorities that are not legally separate from the State. The reporting entity includes the primary government and its discretely presented component units.

#### S. BUDGET CONTROL AND REPORTING

The statutes of the State of New Hampshire require the Governor to submit a biennial budget to the Legislature. This budget, which includes annual budgets for each year of the biennium, consists of three parts: Part I is the Governor's program for meeting all expenditure needs as well as estimating revenues to be received. There is no constitutional or statutory requirement that the Governor propose or the Legislature adopt a budget that does not resort to borrowing. Part II is a detailed breakdown of the budget at the department level for appropriations to meet the expenditure needs of the government. Part III consists of draft appropriation bills for the appropriations made in the proposed budget.

The operating budget is prepared principally on a modified cash basis and adopted for the governmental and proprietary fund types with the exception of the Capital Projects Fund. The Capital Projects Fund budget represents individual projects which extend over several fiscal years. Since the Capital Projects Fund is comprised of appropriations for multi-year projects, it is not included in the budget and actual comparison statement. The Fiduciary Fund Type is not budgeted.

#### S. BUDGET CONTROL AND REPORTING (Continued)

In addition to the enacted biennial operating budget, the Governor may submit supplemental budget requests necessary to meet expenditures during the current biennium. During fiscal year 1997, there were no supplemental budget requests.

The legal level of budgetary control is at the departmental level. All departments are authorized to transfer appropriations within their departments with prior approval of the Legislative Fiscal Committee and the Governor and Council. The State of New Hampshire issues a separate <u>Supplemental Budgetary Financial Data to the Comprehensive Annual Financial Report</u> to illustrate legal level of budgetary compliance.

Additional fiscal control procedures are maintained by both the executive and legislative branches of government. The Executive Branch, represented by the Commissioner of the Department of Administrative Services, is directed to continually monitor the State's financial operations, needs, and resources, and to maintain an integrated financial accounting system. The Legislative Branch, represented by the Fiscal Committee, the Joint Legislative Capital Budget Overview Committee, and the Office of the Legislative Budget Assistant, monitors compliance with the budget and the effectiveness of budgeted programs.

Unexpended balances of appropriation at year end will lapse to undesignated fund balance and be available for future appropriations unless they have been encumbered or legally defined as non-lapsing which means the balances are reported as reservation of fund balance. Capital Projects Fund appropriations are scheduled to lapse two years from date appropriated unless extended or designated as non-lapsing by law.

## NOTE 2 - RECONCILIATION OF FUND EQUITY - BUDGETARY TO GAAP

The following schedule reconciles fund equity of the various funds of the primary government at June 30, 1997, for differences between the budgetary accounting methods and generally accepted accounting principles (GAAP) (expressed in thousands):

	GOVERN	IMENTAL FUN	D TYPES	PROPRIETARY FUND TYPE	FIDUCIARY FUND TYPE	
	General Fund	Special Revenue Funds	Capital Projects Fund	Enterprise Funds	Trust and Agency	Totals (Memorandum Only)
Fund Equity at June 30, 1997 (Budgetary)	\$ 198,395	\$ 215,049	\$ 97,124	\$ 221,890	\$ 289,059	\$ 1,021,517
Adjustments and Reclassifications:						
Receivables	3,399	78,120	1,997			83,516
Accounts Payable and Accrued Liabilities	(56,070)	(127,722)	(6,633)	(5,710)		(196,135)
Transfer from General Fund to Liquor	(3,180)			3,180		
Transfer from General Fund to Special	(29,207)	29,207				
Elimination of Bonds Authorized		(19,045)	(75,158)			(94,203)
Fund Equity at June 30, 1997 (GAAP)	\$ 113,337	\$ 175,609	\$ 17,330	\$ 219,360	\$ 289,059	\$ 814,695

## NOTE 3 - CASH, CASH EQUIVALENTS AND INVESTMENTS

#### PRIMARY GOVERNMENT

The State pools cash and investments, except for separate cash and investment accounts which are maintained in accordance with legal restrictions. Each fund's equity share of the total pooled cash and investments and restricted assets are included on the accompanying balance sheets under the captions "Cash and Cash Equivalents" and "Investments".

#### Deposits:

The following statutory requirements and Treasury Department policies have been adopted to minimize risk associated with deposits.

New Hampshire Revised Statutes Annotated (RSA) Chapter 6:7 as amended (1987) establishes the policy the State Treasurer must adhere to when depositing public monies. The statute restricts deposits to certain types of banking institutions and limits the amounts that may be on deposit with a particular bank at any one time. In addition, all depositories used by the State must be approved, at least annually, by the Governor and Executive Council.

RSA Chapter 6-B:2 as amended (1985) requires the State Treasurer to submit quarterly financial reports detailing depository activity to the Governor and Executive Council, the Commissioner of Administrative Services and the Legislative Fiscal Committee.

The Treasury Department examines the financial condition of its depositories quarterly. The State Treasurer is not required to collateralize bank deposits. However, during fiscal year 1997, the Treasury Department collateralized deposits at two of its major depositories.

## NOTE 3 - CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

#### Deposits (Continued):

Deposits are classified as to custody risk by the three categories described below:

- Category 1 Fully insured or collateralized with securities held by the State or its agent in the State's name.
- Category 2 Collateralized with securities held by the pledging financial institution's trust department or agent in the State's name.
- Category 3 Uncollateralized.

At June 30, 1997 the State's deposit accounts, listed by custody risk category, are shown in the following schedule. The total bank balance represents the total amounts on deposit as reported by the banks. The carrying amount represents the balances per the State's records. The principal difference in demand deposits is outstanding checks which have not cleared the bank as of June 30, 1997. (Expressed in thousands)

		C	ategories		-		6	
	1		2	3	Total Bank Balance		Carrying Amount	
Pooled Deposits:	 			 			-	
Demand Deposits (Interest Bearing)	\$ 415	\$	5,102	\$ 141,102	\$	146,619	\$	96,460
Money Market Accounts				94		94		94
Savings Accounts	 3			 2,943		2,946		2,946
Total Deposits	\$ 418	\$	5,102	\$ 144,139	\$	149,659	\$	99,500

#### Investments:

The following statutory requirements and Treasury Department policies have been adopted to ensure reasonable rates of return on investments while minimizing risk factors.

RSA Chapter 6:8 sets the policy the State Treasurer must adhere to when investing State funds. With the approval of the Governor and Executive Council, the State Treasurer must invest in obligations of the United States Government, in obligations which are legal investments for savings banks and trust companies, in all types of savings accounts, in participation units in the public deposit investment pool established pursuant to RSA 383:22, in certificates of deposit of state or federally chartered banking institutions within New Hampshire, or in certificates of deposit of national banks within the Commonwealth of Massachusetts.

The financial condition of each bank in which or through which investments are made, are evaluated by the Treasury Department on a quarterly basis. Banks through which repurchase agreements are written maintain their collateral in an investment book entry account with the Federal Reserve. That collateral is not separate from the banks' assets. However, securities used for collateral are segregated from the bank's investment account and are kept free of liens, charges or claims of third parties. Repurchase agreements represent 0.6% of the State's investment portfolio at June 30, 1997. The State Treasurer is prohibited by statute from entering into reverse repurchase agreements.

Some United States Government Obligations are classified as cash and cash equivalents on the balance sheet because their original maturities are less than three months. For purposes of the notes to the financial statements, United States Government Obligations are categorized as investments in accordance with GASB Statement No. 3.

## NOTE 3 - CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

#### Investments (Continued):

In accordance with GASB Statement No. 3, investments are classified as to custody risk by the three categories described below (expressed in thousands):

- Category 1 Insured or registered in the State's name, or securities held by the State or its agent in the State's name.
- Category 2 Uninsured and unregistered, with securities held by the counterparty's trust department or agent in the State's name.
- Category 3 Uninsured and unregistered, with securities held by the counterparty, or by its trust department or agent but not in the State's name.

								_			

#### Loans and Notes Receivable:

#### Primary Government:

As of June 30, 1997 total water pollution control loans outstanding recorded in the Special Fund amounted to \$65.3 million and were offset by a corresponding amount of deferred revenue. The State Water Pollution Control Revolving Loan Fund ("State Revolving Fund"), established through RSA 486:14, provides loans and other assistance to local communities for financing waste water treatment facilities. The State Revolving Fund was authorized through the Federal Clean Water Act of 1988 and is initially funded through a federal capitalization grant program to states which includes a state matching funds requirement equal to 20% of the capitalization grant funding. All loan agreements executed under the State Revolving Fund follow federal requirements and require approval from the Governor and Executive Council. Principal and interest repayments on the loans will occur over a period not to exceed 20 years and will be credited directly to the State Revolving Fund enabling the fund balance to be available in perpetuity.

#### Component Units:

The component units balance of \$24.7 million is comprised of University System of New Hampshire Perkins Loans and other college and university loans of \$20.2 million and Business Finance Authority loan repurchase agreements of \$4.5 million.

## NOTE 4 - RECEIVABLES AND LOANS RECEIVABLE (Continued)

#### **Restricted Receivables:**

#### Primary Government:

The balance of \$1.2 million in the General Fund represents interest receivable on the Health Care Transition Fund.

#### Component Units:

The \$19.3 million balance is made up of \$10.8 million of Pease Development Authority leases receivable, \$7.8 million of Community Development Finance Authority pledges receivable and \$0.7 million of miscellaneous receivables.

### **NOTE 5 - FIXED ASSETS**

The following is a summary of fixed assets by category at June 30, 1997 (expressed in thousands):

#### PRIMARY GOVERNMENT

	Enterprise Funds	Fixe	General ed Assets unt Group	COMPONENT UNITS

Total	\$ 519,821	\$	35,475	\$	8,376	\$ 546,920

In accordance with Financial Accounting Standards Board Statement No. 62, interest is capitalized on proprietary fund assets acquired with tax-exempt debt. The amount of interest to be capitalized is calculated by offsetting interest expense incurred from the date of the borrowing until completion of the project with interest earned on invested proceeds over the same period. In fiscal year 1997, net interest cost capitalized in the Turnpike System - Enterprise Fund amounted to \$4,979,950 represented by interest expense of \$5,350,018 less interest income of \$370,068.

## NOTE 6 - LONG-TERM DEBT

#### PRIMARY GOVERNMENT

#### Bonds Authorized and Unissued:

Bonds authorized and unissued amounted to \$285.3 million at June 30, 1997. The proceeds of the bonds will be applied to the following funds when issued (expressed in thousands):

Highway Fund	\$ 19,045
Capital Projects Fund	75,158
Turnpike System	 191,100
Total	\$ 285,303

#### Turnpike System:

The Legislature has established a 10 year highway construction and reconstruction plan for the Turnpike System to be funded from Turnpike revenues such as toll receipts, and other income derived or to be derived by the State from the operation of the Turnpike System and all rights to receive the same, including grants, loans and other contributions from any governmental unit, investment earnings, and the proceeds of any borrowing or of any sale or disposition or insurance of any assets of the Turnpike System. This legislation also authorized the Governor and Executive Council to issue up to \$550 million of revenue bonds to support this project. The State has issued \$305 million of revenue bonds for this project.

#### Advance Refunding:

The following is a summary of general obligation bonds and revenue bonds defeased by the primary government. The proceeds from each advance refunding issue were placed in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bond's are not included in the State's financial statements (expressed in thousands):

Date of Advance Refunding	Amount Outstanding at June 30, 199		
Governmental Fund Type (General Obligation Bonds):			
December 19, 1996 April 15, 1993 September 1, 1992	\$	39,875 52,960 28,000	
Subtotal		120,835	
Turnpike System (Revenue Bonds):

Subtotal		190,900	
Total	\$	311,735	

## NOTE 6 - LONG-TERM DEBT (Continued)

#### Changes in Long-Term Liabilities:

The following is a summary of the changes in the long-term liabilities for bonds, compensated absences and uninsured claims as reported by the primary government during the fiscal year (expressed in thousands):

General Long-Term Debt Account Group	-	alance / 1, 1996	A	ccretion	In	creases	_D	ecreases	-	Balance e 30, 1997
General Obligation Bonds Compensated Absences Uninsured Claims	\$	615,454 52,629 8,033	\$	10,441	\$	92,900 5,804	\$	101,093 535 5,650	\$	617,702 52,094 8,187
Total	\$	676,116	\$	10,441	\$	98,704	\$	107,278	\$	677,983
Enterprise Funds										
General Obligation Bonds Revenue Bonds	\$	47,832 272,887					\$	4,181 5,092	\$	43,651 267,795
Total	\$	320,719	\$	-0-	\$	-0-	\$	9,273	\$	311,446

In December 1996, a bankruptcy court allowed the State to assume legal responsibility for approximately \$9.4 million of revenue bonds issued by the Pease Development Authority (the Authority) in 1992 and guaranteed by the State. These State guaranteed airport revenue bonds were special, limited obligations of the Authority, paid solely from revenues and funds available pursuant to a loan and trust agreement between the Authority and Business Express, Inc. The bankruptcy of Business Express, Inc. resulted in the State exercising its guarantee on these bonds, which have been paid in full with the proceeds from State general obligation refunding bonds issued in December 1996.

On December 19, 1996, the State issued \$63.2 million of general obligation bonds consisting of \$10.0 million of capital improvement bonds and \$53.2 million of refunding bonds. The interest rates on these serial bonds range from 4.45% to 5.50% and the maturity dates range from 1997 through 2016. The \$53.2 million of refunding bonds were used to advance refund \$39.9 million of general obligation bonds and defease \$9.4 million of State guaranteed bonds. A portion of the proceeds from the refunding bonds was deposited into a Trust Account for the defeasance of the State guaranteed bonds and a portion was used to purchase U.S. Government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments from 1997 forward, and the applicable portion of the liability for those bonds has been removed from the General Long-Term Debt Account Group.

The advance refunding of the \$39.9 million of general obligation bonds and the defeasance of \$9.4 million of State guaranteed bonds will result in a cash savings of \$3.0 million over the next twenty years and a long-term economic gain of \$2.6 million.

On May 28, 1997, the State issued \$20.3 million of general obligation capital improvement bonds (College Savings Bond Program). The interest rates on these serial bonds range from 4.85% to 5.65% and the bonds mature on July 1, 2002 through June 1, 2017.

## **NOTE 6 - LONG-TERM DEBT (Continued)**

#### Capital Appreciation Bonds:

Six of the State's general obligation capital improvement bonds issued since November 1990 represent capital appreciation bonds (College Savings Bond Program) with interest being accrued and compounded semiannually in the General Long-Term Debt Account Group. At June 30, 1997, the cumulative interest accretion since issuance for all six capital appreciation bonds is approximately \$51.2 million. The interest is not paid until the bonds mature at which time the expenditure will be recorded.

#### Debt Maturity:

All bonds issued by the State, except for the \$305 million in Turnpike revenue bonds issues discussed earlier in this note, are general obligation bonds which are backed by the full faith and credit of the State. Interest rates on these issues range from 2.7% to 8.5%. Debt service payments on "self-liquidating" debt are funded by reimbursements from component units for debt issued by the State on their behalf and through user fees and other revenues statutorily earmarked to fund debt service payments on specific projects. The anticipated source of repayment and annual maturities are as follows (expressed in thousands):

	 SOURCE OF PRINCIPAL PAYMENTS									DEBT SERVICE

Unamortized Discount	 (91,353)		(9,977)		(5,478)		(106,808)		(4,084)		(110,892)				(110,892)
Total	\$ 497,516	\$	34,148	\$	86,038	\$	617,702	\$	311,446	\$	929,148	\$	404,677	\$	1,333,825

Turnpike System principal debt service includes general obligation principal debt service of \$43.7 million, serial revenue bond principal debt service of \$77.3 million and term revenue bond principal debt service of \$194.6 million. Actual principal paid to bond holders by the bond registrar is different from the above debt service schedule the State Treasurer is required to pay to the bond registrar because a portion of the Turnpike System revenue bonds is composed of term bonds versus serial bonds. For term bonds, the State Treasurer is required to pay the bond registrar the annual principal debt service, but the bond registrar is not required to pay principal to the bond holders until the single date of maturity.

## NOTE 6 - LONG-TERM DEBT (Continued)

#### COMPONENT UNITS

#### Changes in Long-Term Liabilities:

The following is a summary of the changes in the long-term liabilities as reported by the component units during the fiscal year (expressed in thousands):

## NOTE 7 - EMPLOYEE BENEFIT PLANS

#### NEW HAMPSHIRE RETIREMENT SYSTEM

During 1997, the State adopted GASB Statement No. 27 "Accounting for Pensions by State and Local Government Employees", which modified the disclosures required for employees' benefit plans.

#### Plan Description:

The New Hampshire Retirement System is the administrator of a cost-sharing multiple-employer Public Employees Retirement System (The Plan) established in 1967 by RSA 100-A:2 and is qualified as a tax-exempt organization under Sections 401 (a) and 501 (a) of the Internal Revenue Code. The Plan is a contributory defined-benefit plan providing service, disability, death and vested retirement benefits to members and beneficiaries. The Plan covers substantially all full-time state employees, public school teachers and administrators, permanent firefighters and police officers within the State of New Hampshire. Full-time employees of political subdivisions, including counties, municipalities and school districts, are also eligible to participate as a group if the governing body of the political subdivision has elected participation. The Plan is divided into two membership groups. Group I consists of State and local employees and teachers. Group II consists of firefighters and police officers. All assets are in a single trust and are available to pay retirement benefits to all members.

Group I - Members at age 60 qualify for a normal service retirement allowance based on years of creditable service and average final compensation (AFC). The yearly pension amount is 1/60 (1.67%) of average final compensation multiplied by years of creditable service. AFC is defined as the average of the three highest salary years. At age 65, the yearly pension amount is recalculated at 1/66 (1.5%) of AFC multiplied by years of creditable service. Members in service with 10 or more years creditable service who are between age 50 and 60 or members in service with at least 20 or more years of service, whose combination of age and service is 70 or more, are entitled to a retirement allowance with appropriate graduated reduction based on years of creditable service.

Group II - Members who are age 60, or members who are at least age 45 with at least 20 years of creditable service can receive a retirement allowance at a rate of 2.5% of AFC for each year of creditable service, not to exceed 40 years.

Members of both groups may qualify for vested deferred allowances, disability allowances and death benefit allowances subject to meeting various eligibility requirements. Benefits are based on AFC or earnable compensation and/or service.

Pursuant to RSA 100-A:50, the New Hampshire Retirement System also provides a postretirement medical premium subsidy to certain Group II members.

A Special Account has been established by RSA 100-A:16, II(h) for additional benefits. The Special Account is credited with all of the earnings of the Special Account assets plus the earnings of the remaining assets of the plan in excess of the assumed rate of return plus 1/2 of 1 percent.

The New Hampshire Retirement System issues a publicly available financial report that may be obtained by writing to New Hampshire Retirement System, 4 Chenell Drive, Concord, NH 03301-8509.

#### Funding Policy:

The Plan is financed by contributions from the members, the State and local employers, and investment earnings. In fiscal year 1997, by statute, Group I members contributed 5.0% of gross earnings. Group II members contributed 9.3% of gross earnings. Contributions required to cover that amount of cost not met by the members' contributions are determined by a biennial actuarial valuation by the System's actuary using the open group aggregate funding method and are expressed as a percentage of gross payroll and paid by the employers. The State's share represents 100% of the employer cost for all state employees, and 35% of the employer cost for teachers, firefighters, and police officers employed by political subdivisions. The State does not participate in funding the employer cost of other political subdivision employees.

## **NOTE 7 - EMPLOYEE BENEFIT PLANS (Continued)**

#### Funding Policy (Continued):

The State's contributions to the plan for the years ending June 30, 1997, 1996 and 1995 were \$21.0 million, \$20.7 million and \$18.4 million, respectively, equal to the required contributions for each year.

#### HEALTH CARE INSURANCE FOR RETIRED EMPLOYEES

In addition to providing pension benefits, RSA 21-I:30 specifies that the State provides certain health care insurance benefits for retired employees. These benefits include group hospitalization, hospital medical care, and surgical care. Substantially all of the State's employees may become eligible for these benefits if they reach normal retirement age while working for the State and receive their pension on a periodic basis rather than a lump sum. These and similar benefits for active employees are authorized by RSA 21-I:30 and provided through an insurance company whose premiums are based on the benefits paid during the year. The State recognizes the cost of providing these benefits by paying the entire annual insurance premiums with minor contributions offset by members and a portion paid by the New Hampshire Retirement System's Group II medical premium subsidy. The State paid approximately \$15.6 million of annual insurance premiums for approximately 6,860 State retirees receiving a periodic pension benefit for the fiscal year ended June 30, 1997.

#### DEFERRED COMPENSATION PLAN

The State offers its employees a deferred compensation plan (the Plan) created in accordance with Internal Revenue Code Section 457. The Plan, available to all State employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

All amounts of compensation deferred under the Plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property or rights, are (until paid or made available to the employee or other beneficiary) solely the property and rights of the State (without being restricted to the provisions of benefits under the Plan), subject only to the claims of the State's general creditors. Participants' rights under the Plan are equal to those of general creditors of the State in an amount equal to the fair market value of the deferred account for each participant.

It is the opinion of the State's legal counsel that the State has no liability for losses under the Plan and does not have a duty with regard to the investment decisions made by the individual employees who possess an expectancy in receiving funds equivalent to the balance in their specific plan accounts. The State believes that it is unlikely that it will use the assets to satisfy the claims of general creditors in the future.

The assets of the Plan, which are primarily invested in fixed and variable rate annuity contracts with insurance companies, totaled \$104.4 million at June 30, 1997.

#### COMPONENT UNITS

Eligible employees of the Business Finance Authority, the Pease Development Authority and the New Hampshire Retirement System participate in the PERS and additional disclosure about their participation is available in their audited financial statements. Employees of the New Hampshire Community Development Finance Authority and the University System of New Hampshire are not members of the New Hampshire Retirement System, but participate in their own defined contribution plan.

## **NOTE 8 - LEASE COMMITMENTS**

The State has lease commitments for space requirements which are accounted for as operating leases. These leases, subject to continuing appropriation, extend forward a number of years and may contain rent escalation clauses and renewal options. Rent expenditures for fiscal year 1997 were approximately \$10.6 million. The following is a schedule of future minimum rental payments required under operating leases that have initial or remaining noncancellable lease terms in excess of one year as of June 30, 1997 (expressed in thousands):

Payable		
June 30,	Α	mount
1998	 \$	7,277
1999		4,276
2000		2,007
2001		1,432
2002		1,202
Later Years	 	2,224
Total	 \$	18,418

## **NOTE 9 - INTERFUND RECEIVABLES AND PAYABLES**

Due From/To Other Funds in the primary government consist of the following as of June 30, 1997 (expressed in thousands):

RECEIVABLE FUND	AN	IOUNT	PAYABLE FUND	A	MOUNT
Special Fund	\$ 29,206		General Fund	\$	29,206
General Fund		6,295	Sweepstakes Commission		5,859 436
Trust and Agency Funds		193	General Fund Trust and Agency Funds		91 102
Total	\$	35,694	Total	\$	35,694

Due from Component Units:

As of June 30, 1997, the cumulative balance of outstanding loans plus accrued interest to the Pease Development Authority (PDA) amounted to \$54.4 million. The balance has been offset by a corresponding amount of deferred revenue in the General Fund and Special Fund. The following is a summary of the more significant components of these loans:

On March 31, 1993, the Governor and Executive Council approved the issuance of \$29.9 million in State general obligation bonds, the proceeds of which were loaned to the Pease Development Authority (PDA) pursuant to RSA 12-G:27 and an executed loan agreement between the State and the PDA. The proceeds of the bond issue were used to finance the project costs of a facility constructed at Pease which is subleased currently to Alusuisse - Lonza Group (Lonza). As of June 30, 1997, the balance remaining on the loan agreement was \$28.1 million.

## **NOTE 9 - INTERFUND RECEIVABLES AND PAYABLES (Continued)**

#### Due from Component Units (Continued):

As of June 30, 1997, the State has loaned the PDA \$18.4 million in accordance with RSA 12-G:27,III and 12-G:27-C. The loan proceeds were used for the 1992 through 1997 PDA operating budgets pursuant to various legislation and as matching funds for various federal grant programs. The repayment of these loans shall be made when due from available funds of the PDA in accordance with RSA 12-G:27,III and 12-G:27-C.

The State has issued general obligation bonds to finance certain capital projects for the University System of New Hampshire (University System). As of June 30, 1997, the outstanding balance of these bonds was \$12.6 million. The State is to be reimbursed for the debt service payments from the University System as the payments are due. This receivable is classified as "Due from Component Units" and "Deferred Revenue" in the State's General Fund for financial reporting purposes.

#### Due to Component Units:

In accordance with the loan and trust agreements executed between the State, the PDA and Lonza, certain trust accounts have been established by the PDA with the State relative to the \$29.9 million loaned to the PDA. The assets of these trusts are recorded in the primary government's Fiduciary Fund Type with a corresponding liability, "Due to Component Units". As of June 30, 1997 the balance of these trust accounts amounted to \$292 thousand.

## **NOTE 10 - CONTRIBUTED CAPITAL**

The State records the costs associated with projects of the Turnpike System, where the federal government or other non-Turnpike System sources have provided funding, as an increase in fixed assets (e.g. land, construction in progress and infrastructure) and as contributed capital under fund equity on the Turnpike System balance sheet. In accordance with GAAP, the depreciation of the costs of such projects are charged to contributed capital.

The following schedule shows the change in contributed capital during fiscal year 1997 (expressed in thousands):

Net Contributed Capital at July 1, 1996	\$ 49,132
Activity during Fiscal Year 1997:	
Federal Government	1,187
Highway Fund	675
Less: Depreciation	 (1,276)
Net Contributed Capital at June 30, 1997	\$ 49,718

## NOTE 11 - GOVERNMENTAL FUNDS UNDESIGNATED DEFICIT

#### General Fund:

The General Fund unreserved, undesignated fund balance deficit was \$1.2 million as of June 30, 1997 after a \$39.0 million transfer from the Health Care Transition Fund. The transfer resulted from a \$29.0 million shortfall in net medicaid enhancement revenues and a \$10.0 million shortfall in revenue recoupments anticipated under the Department of Health and Human Services consulting contract.

#### Highway Fund:

The Highway Fund unreserved, undesignated deficit was \$16.9 million as of June 13, 1997. The deficit exists primarily due to certain Highway Fund infrastructure projects which will be funded by future bond issues. Bonds authorized and unissued for the Highway Fund amounted to \$19.0 million at June 30, 1997.

#### Capital Projects Fund:

The June 30, 1997, unreserved, undesignated deficit of the Capital Projects Fund is \$75.2 million. The Capital Projects Fund accounts for multi-year capital projects which will be primarily financed by bond proceeds. The project costs are appropriated when the project is approved. Bonds are issued as the expenditures are expected to be incurred. As of June 30, 1997, bonds authorized and unissued for the Capital Projects Fund amounted to \$75.2 million.

<sup>(1)</sup> Total fund equity of the New Hampshire Retirement System is comprised of the following reserved account balances: Reserved for Pension Benefits of \$3,176,157 and Reserved for Post Retirement Medicaid Benefits of \$119,332.

<sup>(2)</sup>The general purpose financial statements includes a separate Combined Statement of Changes in Fund Balances and Combined Statement of Current Funds Revenues, Expenditures and Other Changes for the University System of New Hampshire and a separate Combined Statement of Changes in Plan Net Assets for the New Hampshire Retirement System.

## NOTE 13 - RISK MANAGEMENT AND INSURANCE

The State is exposed to various risk of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The State primarily retains the risk for losses except where the provisions of law allow for the purchase of commercial insurance or where commercial insurance has been proven beneficial for the general public. There are approximately 30 such commercial insurance programs in effect which include fleet automobile liability, ski area liability for the two state owned and operated ski areas and faithful performance position schedule bond. Settled claims under these insurance programs have not exceeded commercial insurance coverage in any of the last three years. Claim liabilities not covered by commercial insurance are recorded when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated.

At June 30, 1997, the amount of liabilities not covered by commercial insurance was approximately \$10.4 million related to worker's compensation claims. This liability is the State's best estimate based on available information. In the governmental funds, the total liability is approximately \$9.3 million. Of this liability, \$1.1 million has been determined to be payable with expendable available financial resources and recorded as a current liability in the governmental funds. The remaining \$8.2 million long-term liability has been recorded in the General Long-Term Debt Account Group. The total liability recorded to the enterprise funds amounted to \$1.1 million as of June 30, 1997.

## **NOTE 13 - RISK MANAGEMENT AND INSURANCE (Continued)**

The following table presents the changes in claims liabilities balances (short- and long-term combined) during fiscal years ending June 30, 1996, and June 30, 1997:

	(Expr	essed in Thousands)		
Fiscal Year	Beginning Balance	Current Year Claims and Changes in Estimates	Claims Payments	Ending Balance
1996 1997	\$ 11,039 9,997	\$ 6,741 7,004	\$ 7,783 6,584	\$

#### **Changes in Claims Liabilities** (Expressed in Thousands)

## NOTE 14 - CONTINGENT AND LIMITED LIABILITIES

#### PRIMARY GOVERNMENT

#### Bonds and First Mortgages:

The State of New Hampshire is contingently liable within statutory legal limits for bonds sold by municipalities, school districts and for first mortgages on industrial and recreational property which contain the guarantee of the State of New Hampshire. The following table shows the composition of the State's \$350.2 million of contingent liabilities and the statutory limits as of June 30, 1997 (expressed in thousands):

	Pr	rincipal	I	nterest	 Total
N.H. Water Supply and Pollution Control Commission, RSA 485-A:7 (Legal Limit \$250.0 million - principal and interest)	\$	109,353	\$	41,531	\$ 150,884
Business Finance Authority, RSA 162-A:22 - Economic Development (Legal Limit \$95.0 million - principal plus interest)		37,293		23,043	60,336
N.H. School Building Authority, RSA 195-C:2 (Legal Limit \$75.0 million - principal and interest)		37,670		15,111	52,781
Business Finance Authority, Ch 265, Laws of 1989 and Ch 8, Laws of 1992 and Ch 257, Laws of 1996 - Airport (Legal Limit \$42.7 million - principal plus interest)		40,885		42,379	83,264
Landfill Closures/Hazardous Waste Sites Cleanup, RSA 149-M:31 (Legal Limit \$30.0 million - principal and interest)		1,530		561	2,091
Pease Development Authority, RSA 12-G:27 (Legal Limit \$12.4 million - principal plus interest)		683		146	829
Total	\$	227,414	\$	122,771	\$ 350,185

The State of New Hampshire has a limited liability for the New Hampshire Housing Finance Authority and the New Hampshire Municipal Bond Bank. Both entities are required to maintain a bond reserve fund. A request for an appropriation may be submitted to the Legislature for a sum required to maintain the bond reserve fund at the established bond reserve fund requirements. Amounts so requested are subject to appropriation by the Legislature and do not constitute a debt of the State and no such appropriations have ever been requested.

## **NOTE 14 - CONTINGENT AND LIMITED LIABILITIES (Continued)**

#### PRIMARY GOVERNMENT (Continued)

Effective June 1, 1990, RSA 12-G:14 authorized the Pease Development Authority (PDA) to issue bonds for the development of the Pease Air Force Base. Per RSA 12-G:27, the Governor and Executive Council may award an unconditional state guarantee for the principal, not to exceed \$50.0 million, plus interest. As of June 30, 1997, the State has issued \$37.6 million in general obligation bonds on behalf of PDA in lieu of a state guarantee in accordance with RSA 12-G:27 III. The general obligation debt issued on behalf of PDA reduced the legal limit of \$50.0 million on debt guaranteed by the State to \$12.4 million at June 30, 1997.

Effective June 8, 1994, RSA 12-G:27b (Chapter 339, Laws of 1994) authorized the Pease Development Authority (PDA) to issue bonds for the development of the former Pease Air Force Base subject to the approval by the Legislative Fiscal Committee of the comprehensive development plan prepared by the PDA. The Governor and Executive Council may award an unconditional state guarantee for the principal, not to exceed \$60.0 million, plus interest.

Effective May 18, 1992, RSA 33:3 (Chapter 275, Laws of 1992) authorized state municipalities to issue Superfund Site Cleanup Bonds in order to pay all response costs associated with the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA). The Governor and Executive Council may award an unconditional state guarantee for the principal, not to exceed \$50.0 million, and interest.

#### Federal Grants:

The State receives federal grants which are subject to review and audit by the grantor agencies. Entitlements to these resources are generally conditional upon compliance with terms and conditions of grant agreements and applicable regulations, including expenditure of resources for allowable purposes. Any disallowances resulting from the audit may become the liability of the State. The State estimates that the ultimate disallowance pertaining to these grants, if any, will be immaterial to its overall financial condition.

#### COMPONENT UNITS

The Community Development Finance Authority records liabilities payable from restricted assets of \$11.4 million. These liabilities relate to economic development projects for which pledges have been received by the authority. There is no guarantee that these projects will begin or be completed. In the event the project does not utilize the funding donated on its behalf, the funds are to be returned to the donor or the State, at the discretion of the donor.

## **NOTE 15 - LITIGATION**

The State, its agencies and employees are defendants in numerous lawsuits involving such matters as funding for social welfare programs, contract claims, negligence and civil actions under U.S. Public Health and Welfare Laws (Title 42, Chapter 21, Section 1983). Although the Attorney General is unable to predict the ultimate outcome of the majority of these suits, which seek approximately \$50 million, in the opinion of the Attorney General and the Commissioner of Administrative Services, the likelihood of such litigation resulting, either individually or in the aggregate, in final judgements against the State which would materially affect its financial position is remote. Accordingly, no provision for such ultimate liability, if any, has been made in the financial statements.

# **COMBINING FINANCIAL STATEMENTS & SCHEDULE**

# **SPECIAL REVENUE FUNDS**

**Highway Fund:** Under the State Constitution, all revenue in excess of the necessary cost of collection and administration accruing to the State from motor vehicle registration fees, operators' licenses, gasoline road toll or any other special charges or taxes with respect to the operation of motor vehicles or the sale or consumption of motor vehicle fuels are appropriated and used exclusively for the construction, reconstruction and maintenance of public highways within this State, including the supervision of traffic thereon and for the payment of the interest and principal of bonds issued for highway purposes. All such revenues, together with federal grants-in-aid received by the State for highway purposes are credited to the Highway Fund. While the principal and interest on State highway bonds is charged to the Highway Fund, the assets of this fund are not pledged to such bonds.

**Fish and Game Fund:** The operations of the State Fish and Game Department, including the operation of fish hatcheries, inland and marine fisheries and wildlife areas, and functions related to law enforcement, land acquisition, and wildlife management and research, are financed through the Fish and Game Fund. Principal revenues of this fund include fees from fish and game licenses, the marine gas tax, penalties and recoveries, and federal grants-in-aid related to fish and game management, all of which is appropriated annually by the Legislature for the use of the Fish and Game Department.

**Special Fund:** The State allocates to the Special Fund expenditures and revenues of programs which, by statute, operate primarily from specific program revenues or from federal grants-in-aid, including the State social services programs, education assistance programs and the administrative expenses of the Department of Employment Security.

# **ENTERPRISE FUNDS**

**Turnpike System:** The State constructs, maintains and operates transportation toll facilities. The Legislature has established a 10-year state highway construction and reconstruction plan and authorized major expansion and improvement projects as part of a Capital Improvement Program. These include a partial circumferential highway around the City of Nashua and other projects which will provide major improvements to the Central Turnpike from Bedford to Nashua and include new interchanges, widening and a toll plaza construction. Additional projects are planned which will provide safety improvements to the existing Turnpike System and increase the Turnpike System's capacity.

**Liquor Commission:** Receipts from operations of the Liquor Commission are transferred to the General Fund on a daily basis. The General Fund advances cash to the Liquor Commission for the purchase of liquor inventory. By statute, all liquor and beer sold in the State must be sold through a sales and distribution system operated by the State Liquor Commission, comprised of three members appointed by the Governor with the consent of the Executive Council. The Commission makes all liquor purchases directly from the manufacturers and importers and operates State liquor stores in cities and towns that accept the provisions of the local option law. The Commission is authorized to lease and equip stores, warehouses and other merchandising facilities for liquor sales, to supervise the construction of State owned liquor stores at various locations in the State, and to sell liquor through retail outlets as well as direct sales to restaurants, hotels and other organizations. The Commission also charges permit and license fees for the sale of beverages through private distributors and retailers plus an additional fee on beverages sold by such retailers at the rate of 30 cents per gallon.

**Sweepstakes Commission:** The State sells lottery games through some 1,350 agents including state liquor stores, licensed racetracks and private retail outlets. Through the sale of instant lottery tickets, Tri-State Megabucks, Powerball, Tri-State Cash 5, New Hampshire Cash Lotto and New Hampshire Daily Pick 3 and Pick 4 games, revenue is generated for prize payments and commission expenses, with the net revenue used for aid to education. This net revenue is transferred to the Department of Education in the General Fund and then transferred to the local school districts.

# **TRUST AND AGENCY FUNDS**

**Expendable Trusts:** An expendable trust is created when both the principal and the earnings of the fund can be expended to achieve the objectives of the fund. The State's Unemployment Compensation Trust Fund is the major component of the State's expendable trust funds.

**Non-Expendable Trusts:** The non-expendable trusts account for assets received and expended by the State as the trustee. The principal of the funds is non-expendable, whereas the earnings on the principal are used to support the individual fund's purpose.

**Agency Funds:** Assets received by the State as an agent for other governmental units, other organizations, or individuals are accounted for as agency funds. Payroll taxes collected on behalf of the federal government and employee voluntary deductions for deposit to the State's deferred compensation plan are two of the larger agency funds of the State.

In addition, the General Fund and the Capital Fund made operating transfers of \$63.8 million and \$14.5 million respectively to the Component Units - College and University Funds.

# **COMPONENT UNITS**

**Business Finance Authority** - (**BFA**): The BFA was established to provide preservation, establishment, and redevelopment of business and industry for the betterment of the economy of the State and its inhabitants, create or preserve employment opportunities, protect the physical environment, preserve or increase the social welfare or economic prosperity of the State or its political subdivisions, and promote the general welfare of the state's citizens. The BFA accomplishes its purposes through various loan programs it offers to the State's businesses and industries. Operations are funded primarily through bond service charge fees and rental income from a building located at an industrial park.

**Pease Development Authority** - (**PDA**): The PDA, successor to the Pease Redevelopment Commission (PRC), was established to implement the PRC's comprehensive plan for the conversion and redevelopment of the Pease International Tradeport. The guiding principles of the plan were job creation, fiscal viability, economic development and environmental quality. Operations are funded primarily through facility lease income, airport joint use income and golf course revenues.

**The Community Development Finance Authority** - **(CDFA)**: The CDFA was established to provide financial and technical assistance to community based housing and economic development projects. The CDFA charges fees to donee organizations based upon the fair market value of property conveyed to the CDFA. The CDFA also distributes pledges it receives to the respective economic development organizations and charges a fee which ranges from 15 to 20 percent of the pledges for managing the program. Operations are financed primarily through these fees.

University System of New Hampshire: The University System was established to provide the residents of the State with a well coordinated system of public higher education offering the arts and sciences, and the professional and technical 2-year, 4-year, and graduate programs which serve the needs of the State and the Nation. In addition, the University System of New Hampshire generates research which contributes to the welfare of humanity, to the development of faculty, and to the educational experiences of students; and provides educational resources and professional expertise to benefit the State and its people.

**New Hampshire Retirement System:** The New Hampshire Retirement System is the administrator of a cost-sharing multiple-employer contributory pension plan and trust established as of July 1, 1967 and is intended for all time to meet the requirements of a qualified tax-exempt organization within the meaning of section 401(a) and section 501(a) of the United States Internal Revenue Code. Participating employers include the employees of the State government of New Hampshire, certain cities and towns, all counties and various school districts.
