December 31, 2006

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Lewis County have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The significant accounting policies are described below.

## A. Reporting Entity

Lewis County was created on December 19, 1845, under the control of the Provisional Government of Oregon and operates under the laws of the state of Washington applicable to a Third Class County. Lewis County is a general purpose government and provides the following services according to the Constitution and laws of the State of Washington: public safety, road improvement, parks and recreation, judicial administration, health and social services, senior services, and general administrative services.

Lewis County is governed by an elected board of three county commissioners. These financial statements include the financial position and results of operations for all fund types and its component units. The blended component unit, although a legally separate entity is, in substance, part of the County's operations and so data from this unit is combined with data of the primary government. The blended component unit has a December 31 year-end.

## **Blended Component Unit**

The Solid Waste Disposal District No. 1 of Lewis County is a quasi-municipal corporation, and an independent taxing authority and district, which is responsible for implementation of a comprehensive solid waste management plan for the County and other incorporated cities and towns within the county. In order to implement the plan and related goals, the County and the incorporated cities and towns within the county have agreed, through an interlocal agreement to the formation of the District and transfer of certain responsibilities to the District. Among obligations transferred to the District is the obligation to make funds available to the Centralia Landfill Closure Group for the closure, post-closure and remediation activities at the Centralia Landfill (which is operated by the City of Centralia). The District has the authority to provide for disposal of solid wastes within the boundaries of Lewis County. The District is governed by a three-member board, which consists of the three county commissioners. The District is reported as an enterprise fund.

## B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component unit. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants, who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function of segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

December 31, 2006

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded form the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

## C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated within the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The government reports the following major governmental funds:

The General Fund (Current Expense) is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Road Fund accounts for the design, construction and maintenance of county roads.

The Capital Facilities Plan Fund is used to account for the ¼ of 1% real estate excise tax to be used to finance capital projects including debt service for the capital facilities plan.

The government reports the following major proprietary fund:

The Solid Waste Disposal District Fund is used to account for activity of Lewis County Solid Waste Disposal District No. 1 and operation of the new solid waste transfer station in Southwest Centralia.

Additionally, the government reports the following fund types:

*Internal service funds* account for operations that provide goods and services to other departments or funds of the county or to other government units on a cost-reimbursement basis. The County's internal service funds include the following intergovernmental services: equipment rental, risk management, pits and quarries, facilities, county insurance and information services.

December 31, 2006

The *agency funds* are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of the following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing service and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the government's enterprise funds and of the government's internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

## D. Assets, Liabilities, and Net Assets or Equity

## 1. Deposits and Investments

The government pools cash resources of its various funds in order to facilitate the management of cash. Income on pooled investments is allocated pursuant to county resolution no. 85-95. Cash applicable to a particular fund is readily identifiable. The balance in the pooled cash account is available to meet current operating requirements. Cash in excess of current requirements is invested in various interest-bearing securities and summarized by fund type in the combined balance sheet.

The amounts reported as cash and equivalents also include compensating balances maintained with certain banks in lieu of payments for services rendered. The average compensating balances maintained during 2006 were approximately \$817,029.

The government's deposits are entirely covered by federal depository insurance (FDIC) or by collateral held in a multiple financial institution pool administered by the Washington Public Deposit Protection Commission (PDPC).

December 31, 2006

For purposes of the statement of cash flows, the proprietary fund types considers all highly liquid investments including restricted assets with a maturity of three months or less when purchased to be cash equivalents, except for certificates of deposit and deposits with fiscal agents.

Investments for the government are reported at fair value. The State Treasurer's Local Government Investment Pool (LGIP) operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

## 2. Receivable and Payables

Taxes receivable consist of property taxes and related interest and penalties (See Property Taxes Note No. 5). Accrued interest receivable consists of amounts earned on investments, notes, and contracts at the end of the year.

Special assessments are recorded when levied. Special assessments receivable consist of current and delinquent assessments and related interest and penalties. Deferred assessments on the fund financial statements consist of unbilled special assessments that are liens against the property benefited.

Customer accounts receivable consist of amounts owed from private individuals or organizations for goods and services including amounts owed for which billings have not been prepared. Notes and contracts receivable consist of amounts owed on open account from private individuals or organizations for goods and services rendered.

## 3. Amounts Due to and from Other Funds and Governments, Interfund Loans and Advances Receivable

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "interfund loans receivable/payable" or "advance to/from other funds." All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances." A separate schedule of interfund loans receivable and payable is furnished in Note 13 – Interfund Balances and Transfers.

## 4. Inventories and Prepaid Items

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Inventories in proprietary funds are valued at cost by the weighted average method. The average cost is recorded as an expense at the time items are consumed.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

#### 5. Restricted Assets

These accounts contain resources for self-insurance programs held in internal service funds. In the internal service funds, restricted cash and investments at year-end were:

Fund	Cash	Investments
Risk Management	-	\$ 5,257,683
County Insurance	-	723,855

December 31, 2006

## 6. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets, other than infrastructure assets, are defined by the government as assets with an initial, individual cost of more than \$5,000. Accordingly, the amounts spent for the construction or acquisition of infrastructure assets are capitalized and reported in the government-wide financial statements for amounts greater than \$50,000. Such assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Costs for additions or improvements to capital assets are capitalized when they increase the effectiveness or efficiency of the asset.

The costs for normal maintenance and repairs are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment of the primary government, is depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Autos, Computers, Office Equipment	3 - 7
Heavy Equipment	8 -20
Buildings, Land Improvements	40
Infrastructure	15 - 60

#### 7. Compensated Absences

The government records all accumulated unused vacation and sick leave benefits. Vacation pay which may accumulate up to 240 hours, is payable upon resignation, retirement or death. Sick leave may accumulate up to 1,320 hours. Fifty percent of outstanding sick leave to a maximum of 360 hours is payable upon resignation, retirement or death.

## 8. Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

December 31, 2006

## 9. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations or fund balance represent tentative management plans that are subject to change.

## NOTE 2 – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

# A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets.

The governmental fund balance sheet includes a reconciliation between *fund balance – total governmental funds* and *net assets – governmental activities* as reported in the government-wide statement of net assets. The details of the difference between fund balance and net assets are as follows:

Fund balances - total governmental funds	\$ 43,506,674
Amounts reported for governmental activities in the statement of net assets are different because:	
Capital assets used in governmental activities are not financial resources and therefore are not reported in the governmental funds.	77,371,109
The focus of governmental funds is on short-term financing, assets are offset by deferred revenue and not included in fund balances.	1,404,292
Some receivable balances are not yet available and are not reported as revenue in the governmental funds.	1,821,203
Long-term liabilities, including bonds payable are not due and payable in the current period and therefore are not reported in the governmental funds.	(26,204,140)
Internal service funds are used by management to charge the costs of certain activities to individual funds.	22,491,700
Net a sets of government activities.	\$ 120,390,838

December 31, 2006

# B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances* – *total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. The details of the difference between the net changes in fund balances and net assets are as follows:

Net changes in fund balances - total governmental funds	\$ 3,661,205
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures.	
However, in the statement of activities, the cost of those assets	
are depreciated over their estimated useful lives.	6,660,037
Repayment of bond principal is an expenditure in governmental	
funds, but the repayment reduces long-term liabilities in the	
statement of net assets. Loan/Bond Proceeds provide current	
financial resources to governmental funds, but the repayment	
reduces long-term liabilities in the statement of net assets.	652,713
Some revenues or expenditures reported in the statement of activities	
are not yet available or expensed and therefore are not reported	
as revenue or expenses in governmental funds.	(3,149,062)
Internal service funds or activities are used by management to charge	
the cost of certain activities to individual funds.	550,341
Change in net assets of governmental activities.	\$8,375,234

December 31, 2006

## NOTE 3 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

#### A. Budgetary Information

## 1. Scope of Budget

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all funds. All annual appropriations lapse at fiscal year end. Annual budgets are adopted by the County's legislative authority (board of county commissioners BOCC) at the fund level, except in the general fund, where expenditures may not exceed appropriations at the department level and the budgets constitute the legal authority for expenditures at that level.

## 2. Procedures for Adopting the Original Budget

The County's budget procedures are mandated by Washington State law in the Revised Code of Washington (RCW) title/chapter 36.40. The steps in the budget process are as follows:

- a. Prior to the first Tuesday in September, the county commissioners' budget officer submits a proposed budget to the county commission. This budget is based on priorities established by the BOCC and estimates provided by county departments during the preceding months, and balanced with revenue estimates made by the departments, county commissioners' budget officer, and county treasurer.
- b. The BOCC conducts public hearings on the proposed budget in October and December.
- c. The BOCC makes adjustments to the proposed budget and adopts by resolution a final budget no later than five days following the first Monday in December.
- d. Within 30 days of adoption, the final budget is normally available to the public.

## 3. Amending the Budget

The budget, as adopted, constitutes the legal authority for expenditures. Budgets are reported according to Generally Accepted Accounting Principles (GAAP). Any revisions that alter the total expenditures of a fund or that affect the number of authorized employee positions, salary ranges, hours, or other conditions of employment must be approved by the county commission.

When the government determines that it is in the best interest of the county to increase or decrease the appropriation for a particular fund or department, it may do so by resolution approved by a simple majority after holding one public hearing.

The budget amounts shown in the financial statements are the final authorized amounts as revised during the year.

The financial statements contain the original and final budget information. The original budget is the first complete appropriated budget. The final budget is the original budget adjusted by all reserves, transfers, allocations, supplemental appropriations, and other legally authorized changes applicable for the fiscal year.

December 31, 2006

#### **B.** Encumbrances

The County does not employ encumbrance accounting.

## C. Deficit fund equity

No funds had a deficit balance as of December 31, 2006.

#### **NOTE 4 – DEPOSITS AND INVESTMENTS**

The county maintains an internal cash pool for idle cash that has not been invested for the benefit of specific funds. All interest earnings from this pool are credited to the *General Fund*. Cash balances of the individual funds constitute a portion of the Local Government Investment Pool and are reported on the balance sheet as Cash and Cash Equivalents or Investments depending on the maturity of the underlying investments. In addition, certain investments are held separately by several county funds and reported accordingly.

The fair value of investments based on quoted market prices at December 31, 2006 is as follows:

	Carrying Value/ Fair
	Value
U.S. Government Securities	34,823,195
Municipal Bonds	1,455,000
Total Investments Subject to Credit Risk Classification	36,278,195
Investments Not Subject to Credit Risk Classification	
State Investment Pool	52,468,255
CD's	5,291,073
T ota 1 In ve st ments	94,037,522

#### **Interest Rate Risk**

In accordance with its investment policy, the county manages its exposure to declines in fair values by limiting the maximum maturity of an individual investment in its investment portfolio to less than sixty months.

## **Credit Risk**

Washington State statutes and county investment policy authorize the county to invest in obligations of the U.S. Treasury, U.S. Government agencies and instrumentalities, bankers acceptances, primary certificates of deposit issued by qualified public depositories, the state treasurer's Local Government Investment Pool (LGIP), municipal bonds issued by Washington State or its local governments, and repurchase agreements collateralized by any previously authorized investments. Accordingly, credit risk if any is extremely limited.

## **Concentration of Risk**

The county's investment policy does not allow for an investment in any one issuer that is in excess of twenty-five percent of the county's total investments.

## **Custodial Credit Risk - Deposits**

In the case of deposits, this is the risk that in the event of a bank failure, the county's deposits may not be returned to it. The county does not currently have a deposit policy for custodial risk. As of December 31, 2006, \$371,728 of the county's deposits was exposed to custodial credit risk because it was uninsured and collateralized with securities held by the pledging financial institution's trust department of agent, but not in the county's name.

December 31, 2006

#### **Custodial Credit Risk - Investment**

For an investment, this is the risk that, in the event of the failure of the counterparty, the county will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. As of December 31, 2006, none of the county's investments were exposed to custodial credit risk.

#### **NOTE 5 – PROPERTY TAXES**

The county treasurer acts as an agent to collect property taxes levied in the county for all taxing authorities. Collections are distributed as collected and those collections requiring remittance are distributed to other jurisdictions after the end of each month.

#### Property Tax Calendar

January 1	Taxes are levied and become an enforceable lien against properties.
February 14	Tax bills are mailed.
April 30	First of two equal installment payments is due.
May 31	Assessed value of property is established for next year's levy at 100% of market value.
October 31	Second installment is due.

Property taxes are recorded as receivable when levied, offset by deferred revenue. During the year, property tax revenues are recognized when collected. No allowance for uncollectible taxes is established because delinquent taxes are considered fully collectible.

The county may levy up to \$1.80 per \$1,000 of assessed valuation for general governmental services, subject to the following two limitations stated in a and b:

- a. Washington State law in RCW 84.55 limits the growth of regular property taxes to an inflation limit factor percent per year, after adjustments for new construction. If the assessed valuation increases by more than the limit factor percent due to revaluation, the levy rate will be decreased. Additionally, upon a finding of 'substantial need' the legislative authority of taxing district other than the state may provide for the use of a limit factor of 106% or less.
- b. The Washington State Constitution limits the total regular property taxes to 1 percent of assessed valuation or \$10 per \$1,000 of value. If the taxes of all districts exceed this amount, each is proportionately reduced until the total is at or below the one percent limit.

The county is also authorized to levy \$2.25 per \$1,000 of assessed valuation in unincorporated areas for road construction and maintenance. This levy is subject to the same limitations as the levy for general governmental services. The county road levy for 2006 was \$2.21735 per \$1,000 on an assessed valuation of \$3,646,114,128 or a total road tax of \$8,084,696.

The county's total regular levy for 2006 was \$1.6736 per \$1,000 on an assessed valuation of \$5,063,970,509 for a total regular tax of \$8,475,000. The components of the regular levy are:

	Levy	Tax
General Fund	1.6373	\$ 8,291,431
Veterans Relief	0.01125	56,970
Me nta l Healt h	0.0250	126,599
Totals	1.6736	\$ 8,475,000

December 31, 2006

## **NOTE 6 – CAPITAL ASSETS**

Capital assets activity for the year ended December 31, 2006 was as follows:

GOVERNMENTAL TYPE ACTIVITIES		Beginning Balance 01/01/2006		Increases	]	Decreases	Ending Balance 12/31/2006

December 31, 2006

#### **NOTE 7 – PENSION PLANS**

Substantially all county full-time and qualifying part-time employees participate in one of the following statewide local government retirement systems administered by the Washington State Department of Retirement Systems, under cost-sharing multiple-employer defined benefit public employee retirement plans and defined contribution retirement plans.

The Department of Retirement Systems (DRS), a department within the primary government of the State of Washington, issues a publicly available comprehensive annual financial report (CAFR) that includes financial statements and required supplementary information for each plan. The DRS CAFR may be obtained by writing to:

Department of Retirement Systems

Communications Unit

PO Box 48380

Olympia, WA 98504-8380

The following disclosures are made pursuant to GASB Statement No. 27, Accounting for Pensions by State and Local Government Employers.

## A. Public Employees' Retirement System (PERS) Plans 1, 2 and 3

**Plan Description:** PERS is a cost-sharing multiple-employer retirement system comprised of three separate plans for membership purposes: Plans 1 and 2 are defined benefit plans and Plan 3 is a combination defined benefit/defined contribution plan. Membership in the system includes: elected officials; state employees; employees of the Supreme, Appeals, and Superior courts (other than judges in a judicial retirement system); employees of legislative committees; community and technical colleges, college and university employees (not in national higher education retirement programs); judges of district and municipal courts; and employees of local governments.

PERS participants who joined the system by September 30, 1977, are Plan 1 members. Those who joined on or after October 1, 1977 and by either, February 28, 2002 for state and higher education employees, or August 31, 2002 for local government employees, are Plan 2 members unless they exercise an option to transfer their membership to Plan 3. PERS participants joining the system on or after March 1, 2002 for state and higher education employees, or September 1, 2002 for local government employees have the option of choosing membership in either PERS Plan 2 or PERS Plan 3. The option must be exercised within 90 days of employment. An employee is reported in Plan 2 until a choice is made. Employees who fail to choose within 90 days default to PERS Plan 3.

PERS defined benefit retirement benefits are financed from a combination of investment earnings and employer and employee contributions. PERS retirement benefit provisions are established in state statute and may be amended only by the State Legislature.

Plan 1 retirement benefits are vested after an employee completes five years of eligible service. Plan 1 members are eligible for retirement at any age after 30 years of service, or at the age of 60 with five years of service, or at the age of 55 with 25 years of service. The annual pension is 2 percent of the average final compensation per year of service, capped at 60 percent. The average final compensation is based on the greatest compensation during any 24 eligible consecutive compensation months. Plan 1 retirements from inactive status prior to the age of 65 may receive actuarially reduced benefits. The benefit is actuarially reduced to reflect the choice of a survivor option. A cost-of living allowance (COLA) is granted at age 66 based upon years of service times the COLA amount, increased by three percent annually. Plan 1 members may also elect to receive an additional COLA amount

December 31, 2006

(indexed to the Seattle Consumer Price Index), capped at three percent annually. To offset the cost of this annual adjustment, the benefit is reduced.

Plan 2 retirements are vested after the completion of five years of eligible service. Plan 2 members may retire at the age of 65 with five years of service, or at the age of 55 with 20 years of service, with an allowance of two percent of the average final compensation per year of service. The average final compensation is based on the greatest compensation during any eligible consecutive 60-month period. Plan 2 retirements prior to the age of 65 received reduced benefits. If retirement is at age 55 or older with at least 30 years of service, a three percent per year reduction applies; otherwise an actuarial reduction will apply. There is no cap on years of service credit; and a cost-of-living allowance is granted (indexed to the Seattle Consumer Price Index), capped at three percent annually.

Plan 3 has a dual benefit structure. Employer contributions finance a defined benefit component, and member contributions finance a defined contribution component. The defined benefit portion provides a benefit calculated at one percent of the average final compensation per year of service. The average final compensation is based on the greatest compensation during any eligible consecutive 60-month period. Effective June 7, 2006, Plan 3 members are vested in the defined benefit portion of their plan after ten years of service; or after five years of service, if twelve months of that service are earned after age 44; or after five service credit years earned in PERS Plan 2 prior to June 1, 2003. Plan 3 members are immediately vested in the defined contribution portion of their plan. Vested Plan 3 members are eligible to retire with full benefits at age of 65, or at age 55 with at least 10 years of service. Retirements prior to the age of 65 receive reduced benefits. If retirement is at age 55 or older with at least 30 years of service, a three percent per year reduction applies; otherwise an actuarial reduction will apply. The benefit is also actuarially reduced to reflect the choice of a survivor option. There is no cap on years of service credit; and Plan 3 provides the same cost-of-living allowance as Plan 2.

The defined contribution portion can be distributed in accordance with an option selected by the member, either as a lump sum or pursuant to other options authorized by the Employee Retirement Benefits Board.

There are 1,181 participating employers in PERS. Membership in PERS consisted of the following as of the latest actuarial valuation date for the plans of September 30, 2005:

Retirees & Beneficiaries Receiving Benefits	68,609
Terminated Plan Members Entitled To But Not	
Yet Receiving Benefits	22,567
Active Plan Member Ve sted	104,574
Active Plan Members Nonvested	51,004
Total	246,754

**Funding Policy:** Each biennium, the state Pension Funding Council adopts Plan 1 employer contribution rates, Plan 2 employer and employee contribution rates, and Plan 3 employer contribution rates. Employee contribution rates for Plan 1 are established by statue at 6 percent for state agencies and local government unit employees, and 7.5 percent for state government elected officials. The employer and employee contribution rates for Plan 2 and the employer contribution rate for Plan 3 are developed by the Office of the State Actuary to fully fund Plan 2 and the defined benefit portion of Plan 3. All employers are required to contribute at the level established by the Legislature. PERS Plan 3 defined contribution is a non-contributing plan for employers. Employees who participate in the defined contribution portion of PERS Plan 3 do not contribute to the defined benefit potion of PERS Plan 3. The Employee Retirement Benefits Board sets Plan 3 employee contribution rates. Six rate options are available ranging from 5 to 15 percent; two of the options are graduated rates dependent on the employee's age. The methods used to determine the contribution requirements are established under state statute in accordance with chapters 41.40 and 41.45 RCW.

December 31, 2006

The required contribution rates expressed as a percentage of covered payroll, as of December 31, 2006 were:

Employer*	3.69%**	3.69%	3.69%****
Employee	6.00%***	3.50%	*** **

<sup>\*</sup> The employer rates include the employer administrative expense fee currently set at 0.18%

Both county and the employees made the required contributions. The county's required contributions for the years ended December 31, were:

	PE	RS Plan 1	PI	ERS Plan 2	PE	RS Plan 3
2006	\$	79,874	\$	594,614	\$	37,696
2005	\$	45,457	\$	344,293	\$	27,834
2004	\$	34,414	\$	235,624	\$	18,738

## B. Law Enforcement Offices' and Fire Fighters' Retirement System (LEOFF) Plans 1 and 2

**Plan Description:** LEOFF is a cost-sharing multiple-employer retirement system comprised of two separate defined benefit plans. LEOFF participants who joined the system by September 30, 1977 are Plan I members. Those who joined on or after October 1, 1977 are Plan 2 members. Membership in the system includes all fultime, fully compensated, local law enforcement officers and firefighters. LEOFF is comprised primarily of non-state employees, with Department of Fish and Wildlife enforcement officers, who were first included prospectively effective July 27, 2003, being an exception. In addition, effective July 24, 2005, current members of PERS who are emergency medical technicians can elect to become members of LEOFF Plan 2.

Effective July 1, 2003, the LEOFF Plan 2 Retirement Board was established to provide governance of LEOFF Plan 2. The Board's duties include adopting contribution rates and recommending policy changes to the Legislature for the LEOFF Plan 2 retirement plan.

LEOFF defined benefit retirement benefits are financed from a combination of investment earnings, employer and employee contributions, and a special funding situation in which the state pays through state legislative appropriations. LEOFF retirement benefit provisions are established in state statute and may be amended by the State Legislature.

Plan 1 retirement benefits are vested after an employee completes five yeas of eligible service. Plan 1 members are eligible for retirement with five years of service at the age of 50. The benefit per year of service calculated as a percent of final average salary is as follows:

Term of Service	Percent of Final Average Salary
20 or more years	2.0%
10 but less than 20 years	1.5%
5 but less than 10 years	1.0%

<sup>\*\*</sup> The employer rate for state elected officials is 5.44%.

<sup>\*\*\*</sup> The employee rate for state elected officials is 7.50%

<sup>\*\*\*\*</sup> Plan 3 defined benefit portion only.

<sup>\*\*\*\*\*</sup> Variable from 5.0% minimum to 15.0% maximum to based on rated selected by the PERS 3 member.

December 31, 2006

The final average salary is the basic monthly salary received at the time of retirement, provided a member has held the same position or rank for 12 months preceding the date of retirement. Otherwise, it is the average of the highest consecutive 24 months' salary within the last 10 years of service. If membership was established in LEOFF after February 18, 1974, the service retirement benefit is capped at 60 percent of final average salary. A cost-of-living allowance is granted (indexed to the Seattle Consumer Price Index).

Plan 2 retirement benefits are vested after an employee completes five years of eligible service. Plan 2 members may retire at the age of 50 with 20 years of service, or at the age of 53 with five years of service, with an allowance of two percent of the final average salary per year of service. The final average salary is based on the highest consecutive 60 months. Plan 2 retirements prior to the age of 53 are actuarially reduced for each year that the benefit commences prior to age 53 and to reflect the choice of a survivor option. If the member has at least 20 years of service and is age 50, the reduction is three percent for each year prior to age 53. There is no cap on years of service credit; and a cost-of-living allowance is granted (indexed to the Seattle Consumer Price Index), capped at three percent annually.

There are 376 participating employers in LEOFF. Membership in LEOFF consisted of the following as of the latest actuarial valuation date for the plans of September 30, 2005:

Retirees & Beneficiaries Receiving Benefits	8,723
Terminated Plan Members Entitled to But Not	
Yet Receiving Benefits	577
Active Plan Members Vested	12,348
Active Plan Member Nonvested	3,543
Total	25,191

**Funding Policy:** Starting on July 1, 2000, Plan 1 employers and employees will contribute zero percent as long as the plan remains fully funded. Employer and employee contribution rates are developed by the Office of the State Actuary to fully fund the plan. Plan 2 employers and employees are required to pay at the level adopted by the Department of Retirement Systems in accordance with 41.45 RCW. All employers are required to contribute at the level required by state law. The Legislature, by means of a special funding arrangement, appropriated money from the state General Fund to supplement the current service liability and fund the prior service costs of Plan 2 in accordance with the requirements of the Pension Funding Council. However, this special funding situation is not mandated by the state constitution and this funding requirement could be returned to the employers by a change of statute. The methods used to determine the contribution rates are established under state statute in accordance with chapters 41.26 and 41.45 RCW.

The required contribution rates expressed as a percentage of current year covered payroll, as of December 31, 2006 were:

	LEOFF Plan 1	LEOFF Plan 2
Employer*	0.18%	4.90%**
Employee	0.00%	7.85%
State	n/a	3.13%

<sup>\*</sup> The employer rates include the employer administrative expense fee currently set at 0.18%.

<sup>\*\*</sup> The employer rate for ports and universities is  $8.03\,\%$ 

December 31, 2006

Both county and the employees made the required contributions. The county's required contributions for the years ended December 31, were:

	LEOFF Plan 1		LEOFF Plan 2
2006	\$ 260	\$	113,860
2005	\$ 315	\$	86,555
2004	\$ 663	\$	70,061

## C. Public Safety Employees' Retirement System (PSERS) Plan 2

**Plan Description:** PSERS was created by the 2004 legislature and became effective July 1, 2006. PSERS is a cost-sharing multiple-employer retirement system comprised of a single defined benefit plan, PSERS Plan 2.

PSERS Plan 2 membership includes full-time employees of a covered employer on or before July 1, 2006, who met at least one of the PSERS eligibility criteria, and elected membership during the election period of July 1, 2006 to September 30, 2006; and those full-time employees, hired on or after July 1, 2006 by a covered employer, that meet at least one of the PSERS eligibility criteria.

A *covered employer* is one that participates in PSERS. Covered employers include: State of Washington agencies: Department of Corrections; Parks and Recreation Commission, Gambling Commission, Washington State Patrol, and Liquor Control Board; Washington state counties; and Washington state cities except for Seattle, Tacoma and Spokane.

To be eligible for PSERS, an employee must work on a full-time basis and:

- have completed a certified criminal justice training course with authority to arrest, conduct criminal investigations, enforce the criminal laws of Washington, and carry a firearm as part of the job: OR
- have primary responsibility to ensure the custody and security of incarcerated or probationary individuals; OR
- function as a limited authority Washington peace officer, as defined in RCW 10.93.020; OR
- have primary responsibility to supervise eligible members who meet the above criteria

PSERS defined benefit retirement benefits are financed from a combination of investment earnings and employer and employee contributions. PSERS retirement benefit provisions are established in state statute and may be amended only by the State Legislature.

Plan 2 retirement benefits are vested after an employee completes five years of eligible service and attains the age of 65. PSERS Plan 2 members may retire at the age of 65 with five years of service, or at the age of 60 with at least 10 years of PSERS service credit, with an allowance of 2 percent of the average final compensation per year of service. The average final compensation is the monthly average of the member's 60 consecutive highest-paid service credit months, excluding any severance pay such as lump-sum payments for deferred sick leave, vacation or annual leave. Plan 2 retirees prior to the age of 60 receive reduced benefits. If retirement is at age 53 or older with at least 20 years of service, a 3 percent per year reduction for each year between the age at retirement and age 60 applies. There is no cap on years of service credit; and a cost-of-living allowance is granted (indexed to the Seattle Consumer Price Index), capped at 3 percent annually.

The first actuarial valuation of the PSERS system will be effective as of September, 2006 and reported in the year 2007.

December 31, 2006

**Funding Policy:** Each biennium, the state Pension Funding Council adopts Plan 2 employer and employee contribution rates. The employer and employee contribution rates for Plan 2 are developed by the Office of the State Actuary to fully fund Plan 2. All employers are required to contribute at the level established by the Legislature. The methods used to determine the contribution requirements are established under state statute in accordance with chapters 41.37 and 41.45 RCW.

The required contribution rates expressed as a percentage of current-year covered payroll, as of December 31, 2006, were as follows:

	PSERS Plan 2
Employer*	6.76%
Employee	6.57%

<sup>\*</sup>The employer rate includes an employer administrative expense fee of 0.18%.

Both Lewis County and the employees made the required contributions. The county's required contributions for the year ended December 31, 2006 were as follows:

	PSERS Plan 2
2006	\$19,699

#### NOTE 8 - POSTRETIREMENT HEALTH CARE BENEFITS

In accordance with the Washington Law Enforcement Officers and Fire Fighters Retirement System (LEOFF) Act (RCW 41.26), the county provides certain health care benefits for retired full-time, fully compensated, law enforcement officers who established membership in the LEOFF 1 retirement system on or before September 30, 1977. Substantially all of the county's law enforcement officers who established membership in the LEOFF 1 retirement system may become eligible for those benefits when they reach normal retirement age. The Lewis County Sheriff's Department, in conjunction with the Lewis County Disability Board, reimburses retired LEOFF 1 law enforcement officers for reasonable medical charges as described in the LEOFF act. In 2006, 22 retirees received benefits under this act. As of December 31, 2006, there were 2 active officers with an average age of 56 who become eligible for benefits when they elect to retire as they have already reached eligible retirement age.

The cost of retiree health care benefits is recognized as an expenditure in the General Fund as claims are incurred. For 2006, those costs totaled \$211,492, with an average cost per retiree of \$9,613.

During 1993 the county began setting aside funds for future post retirement health care benefit payments for the county's LEOFF 1 law enforcement officers. The net assets available at December 31, 2006 were \$5,896,146, shown as a restricted investment in the internal service fund, Risk Management; however, the current strategy does not constitute an advance-funded approach.

December 31, 2006

## NOTE 9 - DEFERRED COMPENSATION PLAN

The county offers its employees deferred compensation plans created in accordance with Internal Revenue code Section 457. Two plans are available, one with State of Washington Department of Retirement Systems, Deferred Compensation Program and a second with Public Employees Benefit Services Corporation (PEBSCO). The plans, available to all eligible employees, permit them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

Plan assets for both the State of Washington Deferred Compensation Program and PEBSCO plans reside in trust held for exclusive benefit of participants and their beneficiaries. Pursuant to Governmental Accounting Standards Board (GASB) Statement 32, since Lewis County is no longer the owner of these assets, as of December 31, 1998, the plan assets and liabilities are no longer reported as an Agency Fund.

## NOTE 10 - RISK MANAGEMENT

**Liability:** Lewis County is a member of the Washington Counties Risk Pool. Chapter 48.62 RCW authorizes the governing body of any one or more governmental entities to form together into or join a pool or organization for the joint purchasing of insurance, and/or joint self-insuring, and/or joint hiring or contracting for risk management services to the same extent that they may individually purchase insurance, self-insure, or hire or contract for risk management or contract for risk management services. An agreement to form a pooling arrangement was made pursuant to the provisions of Chapter 39.34 RCW, the Interlocal Cooperation Act. The pool was formed on August 18, 1988 when counties in the State of Washington joined together by signing an Interlocal Agreement to pool their self-insured losses and jointly purchase insurance and administrative services. Thirty counties have belonged to the Pool for some years since its inception, and twenty eight counties are members presently.

The pool allows members to establish a plan of self-insurance, jointly purchase excess or reinsurance and provide related services. All pool joint self-insurance liability coverage's, including public officials' errors and omissions, are on an "occurrence" basis. The pool provides the following forms of group purchased insurance coverage for its members: "following form" excess liability, and property that includes vehicles, mobile equipment, EDP equipment, and equipment breakdown, etc.

Members make an annual contribution to fund the pool. The pool acquires liability reinsurance from unrelated underwriters that are subject to a pool per-occurrence self-insured retention (SIR) of \$500,000. Members may elect deductible amounts ranging from \$5,000 per occurrence to \$250,000, and are responsible for the first deductible amounts of each claim, while the pool is responsible for the remaining difference up to the pool's \$500,000 SIR. Reinsurance carriers cover all losses over \$500,000 to the maximum limits of each policy. Since the pool is a cooperative program, there is a joint liability among the participating members.

Members contract to remain in the pool for a minimum of five years, and must give notice one year before terminating participation. The Interlocal Agreement is renewed automatically each year until terminated. Even after termination, a member is still responsible for contributions to the pool for any unresolved, unreported, and inprocess claims for the period it was a signatory to the Interlocal Agreement.

The pool is fully funded by its member participants and claims are filed by the same. It is governed by a board of directors, which is comprised of one designated representative from each participating member. An executive committee is elected at the annual meeting, and is responsible for conducting the business affairs of the pool.

December 31, 2006

Lewis County's SIR is in effect for general liability losses up to \$25,000, \$100,000, or \$250,000, dependent on claim date, per occurrence, and those in excess of the retention are insured by the Washington Counties Risk Pool to \$10,000,000. As of December 31, 2006, settlements, if any, have not exceeded insurance coverage.

The county maintains insurance against most normal hazards except for unemployment and worker's compensation, where it has elected to become partially self-insured.

**Risk Management Fund: -** The County established its own Risk Management fund in 1991, which is used to pay deductibles on general liability claims and unemployment claims. The county has elected to become self-insured for unemployment claims, and utilizes an independent claims management firm to review and process claims. Based on Washington Counties Risk Pool, unemployment claims management firm and county management estimates, the county's estimated liability for probable losses at December 31, 2006, which includes estimates for Incurred But Not Reported claims (IBNR) were as follows:

	2005	2006
General Liability Claims	\$ 1,400,000	\$ 1,400,000
Unemployment Claims	95,206	92,229
Total	\$ 1,495,206	\$ 1,492,229

In addition, the following shows changes in the balances of claims liabilities during the past year:

	Ye ar Ended		Year Ended	
		12/31/2005		12/31/2005
Unpaid claims, beginning of fiscal year	\$	1,099,381	\$	1,495,206
Incurred claims & changes in estimate		1,034,038		215,249
Claim Payments		(638,213)		(218,226)
Unpaid claims, end of fiscal year	\$	1,495,206	\$	1,492,229

As of December 31, 2006, cash and investments were \$3,389,091 and \$5,257,683 in unrestricted and restricted (LEOFF 1 post retirement assets), respectively, and net assets were \$7,433,853.

**County Insurance Fund: -** The County has elected to become self-insured for worker's compensation and maintains the County Insurance Fund which is used to pay related claims costs. An independent claims management firm processes claims. Based on the claims management firm's estimates and Washington State Department of Labor & Industries data, the county's estimated liability for probable losses at December 31, 2006 was \$448.116:

	Ye ar Ended		Year Ended	
		12/31/2005		12/31/2006
Unpaid claims, beginning of fiscal year	\$	334,983	\$	334,983
Incurred claims & changes in estimate		227,990		179,139
Claim Payments		(227,990)		(179, 139)
Unpaid claims, end of fiscal year		334,983	\$	334,983

Additionally, the county has an assignment of account agreement with the Washington State Department of Labor and Industries for a single surviving spouse pension obligation. The pension obligation as calculated by the state is \$169,000 plus a three-month deposit of \$4,318. The county has a restricted certificate of deposit for \$190,073 to secure the pension, and the state holds the \$4,318 deposit. The county has met the SIR payable under the excess coverage for the specific claim.

December 31, 2006

The county is required by Washington State Department of Labor and Industries to set aside, for protection to the Workers' Compensation Fund, a minimum of \$100,000 in cash reserves. Additionally, the county has purchased \$1 million of excess coverage insurance for workers' compensation claims, with the county's aggregate SIR of \$500,000 for the current two-year policy period. The policy has a lower SIR for individual claims, which varies with each policy year. As of December 31, 2006, cash and investments were \$871,826 and \$723,855 in unrestricted and restricted assets, respectively and net assets were \$1,286,090.

**Other Insurance:** - The County has purchased coverage for property insurance (including computers), flood, auto and equipment physical damage, boiler, and liability for Packwood, Chehalis/Centralia, and South County Airports. For the past three fiscal years, there were no settlements that exceeded insurance coverage.

#### NOTE 11 - LONG-TERM DEBT

The County may issue general obligation and revenue bonds to finance the purchase of major capital items, the acquisition or construction of major capital facilities and other major items. The general obligation bonds have been issued for the general government and are being repaid from applicable resources. The County is also liable for notes that were entered into for various reasons stated below in the description of each note. These notes are considered obligations of the general government and are being repaid with general governmental revenue sources.

## A. Disclosures About Each Significant Debt Incurred

Outstanding 12/31/2006 \$ 6,475,000
10,930,000
5,535,000
222,357

December 31, 2006

Washington State Revolving Fund Loan - Dept. of Ecology - \$406,261 - Issued July 1, 1994, for the purpose of paying for costs associated with the Wallace Road sewer project. The loan agreement provides a maximum allowable loan of \$406,261, of which the County has received \$322,808. Interest is paid at 4.50% on semi annual installments of \$12,297 through July 1, 2014.

155,088

## **Total Outstanding Debt**

\$23,317,445

## **B.** Debt Service Requirements to Maturity

Annual debt service requirements to maturity for governmental general obligation bonds are as follows:

Y ear Ended	Principal	Interest		
2007	\$ 785,000	\$ 1,031,615		
2008	815,000	1,004,365		
2009	845,000	975,153		
2010	880,000	945,498		
2011	910,000	912,880		
2012-2016	5,215,000	3,968,248		
2017-2021	6,495,000	2,660,978		
2022-2026	6,195,000	981,669		
2027	800,000	38,000		
TOTAL	\$ 22,940,000	\$ 12,518,406		

Annual debt service requirements to maturity for other outstanding debt are as follows:

		Gove rnmen	ctivities	Busin ess-type A ctivities				
Year Ended	Principal		Interest		Principal		Interest	
2007	\$	27,795	\$	2,224	\$	17,813	\$	6,781
2008		27,795		1,946		18,623		5,970
2009		27,795		1,668		19,471		5,123
2010		27,795		1,390		20,357		4,237
2011		27,795		1,112		21,283		3,310
2012-2014		83,384		1,668		57,542		3,942
TOTAL	\$	222,359	\$	10,008	\$	155,089	\$	29,363

## C. Changes in Government-wide Long-Term Debt

The following is a summary of the County's Long-Term Debt transactions for the year ended December 31, 2006:

	Balance 12/31/2005		New Issues Retirement		Balance 12/31/2006		Due Within One Year		
Governmental A cti vities:									
Compensated Absences	\$	3,261,153	\$	3,649,183	\$ 3,261,153	\$	3,649,183	\$	-
General Obligation Bonds		23,690,000		-	750,000		22,940,000		785,000
Notes Payable		422,276		-	44,832		377,444		45,608
TOTAL	\$	27,373,429	\$	3,649,183	\$ 4,055,985	\$	26,966,627	\$	830,608

December 31, 2006

### D. Assets Available for Debt Service

At December 31, 2006, the county has \$9,674 available in the debt service funds. The general fund and other county funds will transfer assets as required to service the general obligation bonded debt. Other debt is serviced by assets within the benefiting fund.

### E. Legal Debt Margin

State law sets the county's limitation on external long-term debt as follows:

Purpose of Indebte dness	Rema	nining Capacity
General Gov't (no vote required)	\$	58,612,275
General Gov't (3/5 majoriy vote)	\$	109,251,980

## F. Current Refunding

There were no refundings during the current year.

## G. Prior Years' Debt Defeasance

In prior years, the County defeased two bond issues by creating separate irrevocable trust funds. New debt has been issued and the proceeds used to purchase U.S. government securities that were placed in the trust funds. The investments and fixed earnings from the investments are sufficient to fully service the defeased debt until the debt is called or matures. For financial reporting purposes, the debt has been considered defeased and therefore removed as a liability from the County's government wide financial statements. As of December 31, 2006, the amount of defeased debt outstanding but removed from the Solid Waste Disposal District amounted to \$5,785,000 and the Governmental Long Term Debt amounted to \$8,010,000.

## **NOTE 12 - JUDGMENTS AND CONTINGENCIES**

The county has recorded in its financial statements all material liabilities, including an estimate for situations, which are not yet resolved, but where, based on available information, management believes it is probable that the county will have to make payment. In the opinion of management, the county's insurance policies and/or self-insurance reserves are adequate to pay all known or pending claims.

The county participates in a number of federal and state assisted programs. These grants are subject to audit by the grantors or their representative. Such audits could result in requests for reimbursement to grantor agencies for expenditures disallowed under the terms of the grants. Management believes that such disallowances, if any, will be immaterial.

## NOTE 13 - INTERFUND BALANCES AND TRANSFERS

## A. Interfund Receivables and Payables

The following table depicts interfund receivable and payable balances as of December 31, 2006:

Fund Types	Dı	ie to Other Funds	Due From Other Funds		
General Fund	\$	184,142	\$	206,984	
Roads		398,924		185,299	
Capital Facilities Fund		186,643		-	
Nonmajor governmental funds Business-type Funds		259,183		645,888	
SW Disposal District		192,496		653	
Nonmajor business-type funds		12,950		195,514	
TOTAL	\$	1,234,338	\$	1,234,338	

## **B.** Interfund Loans

The following table displays interfund loan activity during 2006:

In terfund Loans								
Borrowing Fund Lending Fund Balance 01/01/06 New Loans Payments Made Balance								
South County Airport	General	\$ 9,000	-	\$ 3,000	\$ 6,000			
Senior Services	General	30,000	-	-	30,000			
	TOTAL	\$ 39,000	\$ -	\$ 3,000	\$ 36,000			

## C. Interfund Transfers

The following table displays interfund transfers during 2006:

Operating Tran sfers								
Fund Types		IN	OUT					
General Fund	\$	141,473	\$	4,133,349				
Roads		-		16,087				
Ca pit al Facilities Plan		1,550,725		2,078,216				
Nonmajor governmental funds		4,649,935		246,096				
Nonmajor business-type funds		131,615		-				
TOTAL	\$	6,473,748	\$	6,473,748				

December 31, 2006

## **NOTE 14 - JOINT VENTURE**

Lewis County was jointly participating with the city of Centralia and the city of Chehalis in the Chehalis-Centralia Airport. The joint venture is organized under RCW 14.08.200. On August 24, 2005 by joint resolution of the cities of Centralia and Chehalis and Lewis County, the action authorized the removal of the City of Centralia from the Chehalis-Centralia airport joint operating agreement and the two positions on the governing board held by representatives of the city of Centralia were eliminated.

Chehalis-Centralia Airport is jointly governed by an appointed six member board of which Lewis County is a member. Currently three airport board members are appointed by Lewis County and three members are appointed by the City of Chehalis. The appointment of the seventh member is alternated between the two entities. Lewis County has a one-half equity interest in the Chehalis-Centralia Airport. The equity position of the airport was \$2,852,453 as of December 31, 2006.

In 2004, the County issued a line of credit not to exceed \$3,065,700 to the Chehalis-Centralia Airport for capital construction. In 2005, that line of credit was increased to \$3,500,000. The balance due to Lewis County from the Chehalis-Centralia Airport was \$3,103,762.

Financial statements for the Chehalis-Centralia Airport can be obtained from its administrator at Airport, PO Box 1344, Chehalis, WA 98532.

#### NOTE 15 - CLOSURE AND POSTCLOSURE CARE COST

On August 28, 1990, the Centralia Landfill was listed on the Washington State Hazardous Sites List pursuant to Chapter 70, 105D RCW, the Model Toxics Control Act, and WAC 173-340-330, and on August 30, 1990, the Landfill was added to the Federal National Priorities List (NPL) pursuant to 42 U.S.C. Section 9605 of the Comprehensive Environment Response, Compensation, and Liability Act (CERCLA or Superfund). As a result of these listings, it was necessary for the Landfill to be remediated pursuant to the requirements of these laws.

On May 1, 1990 an Interlocal agreement was made between the various municipalities within Lewis County forming the Centralia Landfill Closure Group (CLCG) regarding the closure of the Centralia landfill. The municipalities, by the agreement, commit to take all action reasonably necessary to comply with the Environmental Laws and to share the costs of such compliance. Lewis County's (unincorporated portion) potential liability represents 48.85% of the closure costs.

In addition to the municipalities, other PLPs (Potentially Liable Parties) and insurance carriers for the municipalities have been identified. The Washington State Department of Ecology (DOE) has evaluated information related to each PLP and found that credible evidence existed to notify two firms of their potential liability. Insurance carriers for the municipalities have been involved at various levels of the closure process, assisting in the duty to defend and to cover costs of the closure. As of December 1997, \$3,430,481 had been recovered from insurance carriers.

During 1993, Lewis County concluded the process of forming a countywide Solid Waste Disposal District. Reportable financial activity of the district began in the spring of 1994, then, the district assumed the local government's share of the liability for the Centralia Landfill closure. The maximum liability to the Lewis County Solid Waste Disposal District as well as all signatory municipalities to the landfill closure interlocal agreement is capped at \$13 million.

December 31, 2006

Also in 1994, the Lewis County Solid Waste Disposal District #1 forwarded the sum of \$8.7 million to the city of Centralia to fulfill the assumption of the local government's share of the liability for the Centralia Landfill closure. Therefore, the potential remaining obligation to the Disposal District as well as all signing municipalities is \$4.3 million with Lewis County either alone or through its Disposal District, responsible for 48.85% of that \$4.3 million (\$2.1 million). However, current estimates indicate that there may be no future costs to Lewis County; accordingly, no additional liabilities for closure have been recorded in the Lewis County Solid Waste Disposal District fund.

Since the closure project is currently included on the National Priorities List pursuant to the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA" and "Superfund"), there is potential financial assistance available through the State of Washington Department of Ecology for a percentage (historically 75%) of the closure costs. As of December 1997, the CLCG had received a total of \$7,909,813 from 1991 through 1997 in grant proceeds from the Department of Ecology. Current assessments indicate that future Ecology participation in closure activities will be in the area of 40% participation due to declining resources at the state level.

Interim action has been completed, pursuant to an initial consent decree, to provide a final cover over closed portions of the landfill. Completion of this project will reduce ultimate closure costs. The estimated total cost for the interim action was over \$9.6 million, with financial assistance from the Washington State DOE. Lewis County's share is represented by 48.85% of the local cost. The sale of the bonds in 1994 partially offset those costs.

Within the landfill closure account managed by the CLCG, there have been adequate resources (factoring the \$8.7 million forwarded to the CLCG by the Disposal District) to cover costs associated with remedial work undertaken thus far. The Solid Waste Disposal District transferred \$269,290 during the year and at the end of 2006, approximately \$126,407 remained in the City of Centralia Landfill Operating Trust Account, administered by the CLCG.

Significant decreases in the fund were the result of expenditures for post closure mitigation and the return of \$8.7 million to Lewis County Solid Waste Disposal District #1. Increases to the landfill closure fund were the result of changes in known circumstances. The liability will continue to change as expenditures occur and as known circumstances occur due to the engineering determinations, inflation, deflation, technology or applicable laws or regulations and the completion of Remedial Investigation, Feasibility Study, and Closure Action Plan (RI/FS/CAP) negotiations with the Department of Ecology.

The CLCG, PLPs and insurance carriers have negotiated for the second consent decree with the Washington State DOE. A Remedial Investigation and Feasibility Study (RI/FS) has begun. Once completed, the results will be used to formulate the Closure Action Plan (CAP) which was completed in 2001. This plan will be approved by the DOE. It is possible that the landfill will be de-listed from CERCLA at the completion of the RI/FS because of pressure on the Environmental Protection Agency from the United States Congress, but that possibility is remote.

In April 1997, the Centralia Landfill Closure Group forwarded \$8.7 million to the Lewis County Solid Waste Disposal District, as these funds were no longer needed for landfill closure costs. On May 6, 1997, this money, along with other funds set aside in the Solid Waste Disposal District fund as debt service reserves, were utilized to defease the \$9,485,000 of the District's 1994 Revenue Bonds. The District acquired and deposited U.S. Government obligations irrevocably in escrow with First Trust National Association, Seattle, Washington, in amounts sufficient to pay the principal of and interest on the 1994 bonds through the final date of maturity, November 1, 2015. The payment of the debt service on the 1994 Bonds will be made solely from the U.S. Government Obligations and no longer constitutes a lien and charge on the revenues of the District.

December 31, 2006

The total costs to Lewis County Solid Waste Disposal District in the future, and the period of time over which such costs will be incurred are reasonably predictable at this time.

## **NOTE 16 - OTHER DISCLOSURES**

## A. Changes to Funds

Reorganization of existing funds in 2006:

None

New funds established in 2006:

None

**Existing funds dissolved in 2006:** 

None

## **B.** Accounting and Reporting Changes

In accordance with the County's plan to retroactively report infrastructure from 1980 to the date of implementation of GASB 34, Lewis County retroactively reported \$51,067,788 in infrastructure and \$33,544,106 in accumulated depreciation representing the unreported infrastructure from 1980 (date of implementation).

## C. Subsequent Events

On August 27, 2007 the County issued a limited tax general obligation bond, 2007 (Chehalis-Centralia Airport), in the principal amount of \$3,500,000 to provide funds for refinancing interim financing for improvements at the Chehalis-Centralia Airport and to pay for costs of issuance of such bond.
